## »WHY WE THINK SUSTAINABLY

We have the privilege of living and working in a place surrounded by nature. For over a hundred years, we have been based in the Odenwald and Westerwald. Consequently, we are well aware of what we owe ourselves, our families, society and our partners. For us, appreciation of nature and respect for human beings is the key to responsible trading.

As a fourth-generation family business, we treat things with care and conduct our operations on a sustainable basis. We view the efficient use of resources throughout the entire product life cycle as a self-evident maxim. When you buy a MAUL product, you can rest assured that it was manufactured under socially responsible conditions with minimal environmental impact.

We firmly believe in Germany as a business location and have expanded our production facilities in Zell and Kirchen. We invest and pay taxes here, create and retain apprenticeships and jobs, and actively take responsibility for the future of our region.

For further information, go to **[www.maul.uk](http://www.maul.uk)** and take a look at our Sustainability Brochure.

## »WHY WE KNOW OUR TRADE

For generations, we have been manufacturing products in Bad König and Kirchen that simplify day-to-day office tasks – always with a keen eye for detail.

Our specialists in the fields of metal manufacturing, plastics production and electronics work with great care and precision on every single component. As we select the materials and develop the products ourselves, we can guarantee top quality and high-end design. Our intelligent testing processes ensure that all MAUL products conform with high safety standards and are of a consistently high quality.

To find out more, go to [www.maul.uk/office/en/info/company/](http://www.maul.uk/office/en/info/company/)

## »WHY WE LOVE WHAT WE DO

*MAUL employees from Sales and Marketing  
with the mobile whiteboard easy2move*

MAUL is an international brand-name company with production facilities at two locations in Germany. Over one thousand innovative products made from plastic and metal are manufactured here. We draw on our ingenuity, experience and flexibility to design and produce a multitude of creative new products. As a result, we are able to add exciting new products to our product range year after year. This innovative capability is evident from our numerous utility models and patents.

The skills of the 190-strong MAUL workforce combined with our enthusiasm for progress and our high-tech in-house production facility are what makes us so good at what we do. We act quickly and flexibly, with a high level of motivation and identification with our work. Our focus is not on short-term solutions, but on good, durable, creative products – in line with our company philosophy, which has proved successful for more than a hundred years.

To find out more, go to [www.maul.uk/office/en/info/company/](http://www.maul.uk/office/en/info/company/)

# »FLIPCHART & CO. IN THE DIGITAL AGE

IN THIS INTERVIEW, DIGITISATION MANAGER DANNY HÜBNER TALKS ABOUT THE IMPORTANCE OF DIGITISATION AND WHAT IT MEANS FOR CONVENTIONAL PRESENTATION TOOLS.

### What changes are being brought about by Industry 4.0?

The way in which we work and manufacture is changing dramatically due to digitisation. Industry 4.0 involves linking industrial production with state-of-the-art information and communication technology in an intelligent way.

The interconnection between digital technologies and automation engineering is making organisational tasks more challenging. Moreover, there is an increasing need for multidisciplinary skills. All participants need to be more closely involved in processes in the interests of coordinating workflows; digital tools provide assistance with this.

### How much emphasis is there on digitisation at MAUL?

The fact that the position of Chief Digital Officer exists at all is evidence of the high importance attached to digitisation at MAUL. We are convinced that we now need to adopt the right course in order to fully satisfy the needs of our customers along the entire customer journey in the future. This applies not only to the touch-points with the customers; we also intend to further optimise our in-house processes at the same time.

### Agility has become a trend. What's the situation there?

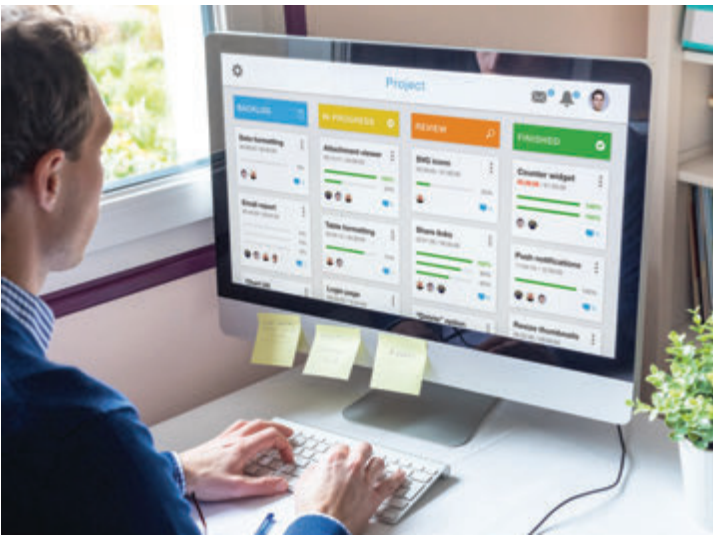

For me, that's another prerequisite for a successful future. For a long time now, our CEO Stefan Scharmann has attached high importance to flat hierarchies, short decision-making paths and the distribution of responsibility. That's now helping us master the digital transformation.

In these volatile times, it is important not only to use a digital tool, but also the right working methods. In my view, the crucial factor is finding the right balance between leanness and agility. It's not only the process that matters, but also the output, in other words the product.

### What digital and analogue tools are available to provide support and which ones do you use at MAUL?

In many cases, especially when introducing agile methods, analogue work tools are the best option. SCRUM, Kanban or creative techniques work better in the early stages when, for example, team tasks are noted on stickers and clearly arranged on a whiteboard in accordance with the Kanban method. This ensures that everyone is informed, focused and able to complete tasks quickly.

At MAUL, we use the best of both worlds: digital tools for organising teams at multiple locations (teleworking), and boards and flipcharts from our own product range for creative meetings.

## »VISUAL COMMUNICATION

Varied, well structured, informative and effective on a long-term basis: these attributes are just as important for presentation products as they are for a good moderating technique. We have the right tools to capture ideas and information effectively.

For decades we have been manufacturing all manner of whiteboards in Germany. Every frame, every screw and every type of material has been carefully selected and thoroughly tested by our experts. This, combined with our metal-processing know-how, results in clever, durable boards. We can offer top quality in every price bracket.

»STURDY DESIGNS,  
HIGH-QUALITY MANUFACTURE

MAUL press brake in the metal manufacturing process: pressing force 100 tonnes, bending length 3100 mm

SURFACE AND  
FRAME MAKE  
ALL THE DIFFERENCE

The art of manufacturing information boards lies in making them sturdy but light weight. Sturdy so that the board does not become out of shape and the frame does not come off as time goes by. And light-weight so that it can be firmly attached to any wall without difficulty or moved around effortlessly in the form of a mobile board, moderation board or flipchart. The diagram shows how we solve this task in detail.

*Precision down to the finest detail: cross-section of the aluminium profile for the whiteboard MAULpro*

## SURFACES

In addition to pinboard, cork, textile and printed surfaces, we have opted for two high-quality whiteboard coatings:

**Coated steel**

This is a robust surface made from high-quality polyester, applied precisely and evenly, and firmly attached to the substrate. The boards are suitable for permanent or frequent use.

## Enamel coating

Fired at 800°C, enamel is extremely robust and resilient, and even capable of withstanding aggressive cleaning agents. This means that any permanent marker ink used by mistake, along with graffiti and adhesives, can be removed without difficulty. Even when exposed to intense light, enamel remains lightfast, temperature-resistant and extremely durable. That's why we offer a 30-year guarantee on this surface.

## BOARD FRAMES

Generally speaking, whiteboard frames are made from aluminium in the interests of keeping down the weight of the boards. There are three things to be taken into consideration:

- Adequate material thickness: the aluminium must be sturdy enough, as otherwise the frame will become misshapen and buckled with time. We use aluminium with a thickness of at least 0,7 mm, based on the results of our endurance and stress tests.
- Shape of the profiles: the right shape also helps to achieve stability. Our technicians have developed torsion-resistant shapes specially for MAUL to make our boards extra sturdy.
- Firm connection to the board: that's why at MAUL all frames in the Pro and Standard product lines are fastened to the boards with adhesive as well as screws.

Corners and edges also have to be shaped in such a way that there is no risk of injury. All mitred corners on MAUL boards conform with the standards prescribed by the German Federal Agency for Occupational Health and Safety and Occupational Medicine (Bundesagentur für Arbeitsschutz und Arbeitsmedizin – BAuA).

## SUBSTRATE

Underneath the plastic or enamel coating there is a cleverly designed substrate board, the so-called sandwich. It consists partly of sturdy sheet steel to which the surface material is applied (which is why all MAUL whiteboards are magnetic). Underneath that is a very thin, but dimensionally stable composite material, which in the case of the Pro models, for example, has a honeycomb support core. Pinboards have a durable softwood core that provides a good hold for the pins.

The reverse of the sandwich must be made from the same material as the front (e.g. sheet steel in the case of whiteboards) in order to prevent distortion due to humidity, for example.

# »COMPETENT, CONVENIENT AND SUSTAINABLE

## PRECISION DOWN TO THE FINEST DETAIL

We know our trade: metal processing has been our speciality ever since our foundation. This knowhow, along with the specialist knowledge of our developers and toolmakers, has been applied to even the smallest of components. Every screw and roll, every hinge and profile and numerous other small parts are selected with care and undergo stringent testing – because above all it is the strength of the connections that determines the durability of a product.

## MOUNTING

Secure mounting of boards on any type of wall is essential. It is therefore advantageous if the board is light in weight, but nevertheless sturdy. This is particularly true in the case of large boards. A lot of thought has been put into mounting MAUL boards; high-quality fittings are included.

Horizontal mounting creates a harmonious look. In the case of the MAULpro models, the patented excentric fitting is helpful. It allows you to adjust the board by up to 6 mm after hanging.

Easy mounting: the MAULpro board can be adjusted easily by up to 6 mm after hanging with the help of the patented MAUL excenter fitting.

## SUSTAINABLE DEVELOPMENT AND MANUFACTURING

We rely on quality to achieve long product life – the best possible quality in each price bracket. From the idea right up to recycling, our environmental officers scrutinise the entire board production process for ecological improvement potential. The manufacturing processes are virtually emission-free; manufacturing remnants are collected and recycled. All our synthetics are cadmium-free and classed as unfilled thermoplastics, the most readily recyclable group of plastics. Enamel consists of natural raw materials, has a long service life and is easy to recycle. Materials such as aluminium, steel, plastic, softwood and screws are 98% recyclable. Many components also contain a certain proportion of recycled materials.

POST-IT STICKERS

SUITABLE FOR USE AS A FLIPCHART (MAULPRO)

### MODERN-DAY WORKING WORLDS

Flexibility and agility are the hallmarks of the modern-day office. Variable room concepts, desk-sharing and rotating teams are standard practice. The work environment needs to be adaptable to different people and tasks. Mobile presentation products are one way of making this possible. Whether you need a brainstorming board in meeting areas, a scrumboard for your next project, a dividing wall between colleagues, or an info board for an entrance or an outdoor meeting: rolling panels, mobile boards and flipcharts are easy to move around and suitable for a wide range of applications.

### MULTIFUNCTIONAL

Each board can be used in a variety of ways. Take a look at our examples for inspiration. Discover our presentation and moderation accessories starting on pages 64 and 80. Information about the adhesive force and types of magnets can be found on pages 88 and 91.

### CLEANING TIPS

Clean thoroughly before initial use. Use a whiteboard cleaning agent, detergent or a degreasing agent. Depending on frequency of use, clean thoroughly several times a week: first wipe off any whiteboard marker residue with a dry cloth, then wipe the entire surface with whiteboard cleaning agent. The board must be completely dry before being reused. Repeat this process until all marker residue has been removed. This also applies if the text has been left on the board for a long time. Only use dry-wipe marker pens. For more tips, e.g. how to remove permanent marker ink used by accident, go to [www.maul.uk/office/en/info/news/](http://www.maul.uk/office/en/info/news/)

WHITEBOARDS

» OUR SERIES

Choose from our 4 function and quality levels.

Series MAULpro

Maximum design, stability and function.

Series MAULoffice

Performance strength in stability and design.

Series MAULsolid

Very stable basic model.

Series MAULstandard

Basic model for price-conscious buyers.

WHITEBOARDS

Mobile whiteboard MAULpro easy2move, coated steel

- **Clever:** slim but high working surface, suits documents in portrait format (e.g. flipchart paper)
  - **Made in Germany:** maximum stability, functionality and quality
  - **Robust:** resistant working surface, high-quality frame, extremely sturdy base
  - **3-year guarantee, 5 years on the surface if used in proper way**
  - **Mobile:** can easily be moved by one person, large and easy motion twin wheels
  - **Valuable wherever people work in a creative way:** next to the desk, for meetings, at the reception area, in variable space concepts or coworking offices
- Practical: double working surface, whiteboard surface on both sides
  - Modern working: supports the most important creative techniques, for brainstormings, as moodboard or for any other visualisation method
  - Versatile: can also be used from a sitting position or as a room divider
  - As flipchart: includes two sliding pad holders (pad Art.-No. 638 78 02 available as accessory)
  - Robust: coated steel surface, suitable for permanent use
  - Triple use: suitable for magnets, writable and very good dry-wipe
  - The frame consists of a hollow-chamber profile made of silver anodised aluminium, thickness approx. 1,3 mm, firmly glued
  - Steel working surface on stable sandwich kernel
  - Sturdy stand: silver powder-coated construction of oval tubes
  - Twin swivel wheels, lockable, also suitable for hard floor coverings
  - Total height 196,5 cm
  - Can be recycled to 98%, low emission production in our national plant
  - From the pro with decade-long experience in whiteboard and metal construction

Item	Colours	Size	PU
633 94	84 grey	75 x 180 cm	1 pc(s).
633 96	84 grey	100 x 180 cm	1 pc(s).

WHITEBOARDS

Whiteboard 2000 MAULpro, coated steel

- The best in terms of stability, functionality and quality
  - Made in Germany, GS Label (tested security)
  - 3-year guarantee, 5 years on the surface if used in a proper way
  - Highest stability: strong silver anodised aluminium frame, thickness approx. 1,3 mm
  - Increased magnetic adherence: steel surface on stable sandwich kernel
  - Low weight, easy mounting: easy adjustment up to 6 mm after mounting by means of patented MAUL eccentric elements
- Triple use: suitable for magnets, writable and very good dry-wipe
  - Landscape or portrait format
  - Tough coated steel surface, suitable for permanent work
  - Wall friendly: air can circulate between wall and board
  - Sliding plastic tray
  - Can be used as flipchart: economic upgrade with discreet flipchart pad holders (Art.-No. 638 73 84)
  - Can be recycled to 98%, low emission production in our national plant
  - Safe and ecological packaging: shipping box including mounting material
  - Colour code refers to the tray
  - A large choice: many sizes also with cork, structured or textile surfaces available
  - Lead time for larger sizes from 120 x 180 cm: on demand
  - 630 85: 4 aluminium magnetic info rails included. Length 21 cm. Individually inscribable, cardboard strips can be inserted at the front, 21 x 3,4 cm, documents can be fixed under the ledge

Item	Colours	Size	PU

» WHITEBOARDS 2000 MAULPRO

Our environment officers have been examining the production process of the whiteboards in great detail for quite some time to utilise any ecological potential.

The production process runs carbon-neutral; production scrap is collected and recycled. All plastics used are cadmium-free and belong to the unreinforced thermoplastics, the most recycling-friendly group of plastics.

Enamel is made of natural materials and it is very suitable for recycling purposes. When developing products we try to achieve a construction which is suitable for recycling purposes according to the VDI-directives. The materials used, e.g. aluminium, steel, plastic, soft wood or screws have a recycling factor of 98%. In addition many of the parts, e.g. parts of the supports or the steel working surfaces already contain recycled parts.

WHITEBOARDS

Whiteboard 2000 MAULpro, white, coated steel

- The best in terms of stability, functionality and quality
- Discreet and elegant: pleasant white powder coated frame
- White slidable tray
- Made in Germany, GS Label (tested security)
- 3-year guarantee, 5 years on the surface if used in proper way
- Low weight, easy mounting: easy adjustment up to 6 mm after mounting by means of patented MAUL eccentric elements

» ENAMEL- WEAR-RESISTANT & LONG-LASTING

Enamel is our premium-quality surface. Formed at around 800°, it is very hard-wearing and durable and can withstand cleaning with strong detergents without incurring damage. Even permanent marker used by accident, graffiti or glue can be removed without problems. The environment is not contaminated: the necessary natural materials are sustainably available in sufficient quantity and enamelled products don't contain any dangerous materials. Enamel surfaces are also light- and heat-resistant and have a long life cycle. Joined together with the MAUL frames they become strong performance premium products.

WHITEBOARDS

Whiteboard folding board MAULpro, coated steel

- A wonder of space: maximum working surface on minimum space, triple surface available in comparison to the used wall space
  - The best in terms of stability, functionality and quality
  - Strong and unlimited stability: massive metal wings hinges made of 3 mm steel
  - Made in Germany
  - 3-year guarantee, 5 years on the surface if used in proper way
  - Increased magnetic adherence: steel surface on stable sandwich kernel
  - Low weight, easy mounting: easy adjustment up to 6 mm after mounting by means of patented MAUL eccentric elements
- Five writable surfaces, 2 opening wings
  - Triple use: suitable for magnets, writable and very good dry-wipe
  - Clever: metal tray to be pulled down
  - When the pen tray is pushed in, the board is closed. Tray is held by means of neodymium magnets
  - Tough coated steel surface, suitable for permanent use
  - Highest stability: strong silver anodised aluminium frame, thickness approx. 1,3 mm
  - Wall friendly: air can circulate between wall and board
  - Can be recycled to 98%, low emission production in our national plants
  - Safe and ecological packaging, shipping box including
  - Colour code refers to the colour of the corner joints
  - 633 72: Wings 100 x 60 cm each
  - 633 70: Wings 100 x 75 cm each

WHITEBOARDS

Mobile whiteboard 2000 MAULpro, coated steel

- Highest stability for the board and the stand
  - Made in Germany
  - 3-year guarantee, 5 years on the surface if used in proper way
  - Adjustable height in 5 steps: dimensions 75 x 137-200 x 65 cm (portrait), 120 x 140-175 x 65 cm (landscape)
  - To be used as flipchart by means of two sliding pad holders (pad Art.-No. 638 78 02 available as accessory)
  - Mobile: set of 4 twin wheels included, 2 of them lockable
- Landscape or Portrait format, sliding tray
  - Can be used as A-board or info stand on the lowest step
  - Tough: coated steel surface 75 x 120 cm, suitable for permanent work
  - Quiet: sandwich kernel technique reduces the noise at work
  - Triple use: suitable for magnets, writable and very good dry-wipe
  - Stable stand: silver powder-coated oval tube construction
  - Safe: the board lies in two self-securing board holders and is secured on the top by an integrated magnetic system
  - Stronger magnetic adherence: steel surface on stable sandwich kernel
  - Silver anodised aluminium frame, thickness approx. 1,3 mm, firmly screwed
  - Includes 4 foot screws for balance on uneven surfaces
  - Can be recycled to 98%, low emission production in our national plant
  - Colour code refers to corner joints

Item	Colours	Size	PU
637 10	84 grey	120 x 75 cm	1 pc(s).

Mobile whiteboard MAULpro, fixed, coated steel

- Convenient: double working surface, whiteboard surface on both sides
  - The best in terms of stability, functionality and quality
  - Made in Germany
  - 3-year guarantee, 5 years on the surface if used in proper way
  - Free standing board can be moved without effort, large smooth-running lockable twin wheels
  - Extremely robust: very stable stand, non-wearing surface
- Triple use: suitable for magnets, writable and very good dry-wipe
  - Can be used as flipchart: economic upgrade with discreet flipchart pad holders (Art.-No. 638 73 84)
  - Steel surface on stable sandwich kernel
  - Tough coated steel surface, suitable for permanent work
  - Plastic tray, removable and slidable
  - Highest stability: strong silver anodised aluminium frame, thickness approx. 1,3 mm
  - Sturdy stand: silver powder-coated construction of oval tubes
  - Can be recycled to 98%, low emission production in our national plant
  - Safe and ecological packaging, shipping box including

FLIPCHARTS

Flipchart MAULpro, four-legged

- The best in terms of design, stability and functionality
  - High mobility: large lockable twin wheels. Particularly easy to move and to set up (easy transport system)
  - Made in Germany, 3-year guarantee
  - Convenient: rod extendable to the left or the right, e. g. for written block pages
  - Stepless adjustable height: suitable for standing or sitting work, e. g. for wheelchair users or children
  - Innovative: never slips down due to self-stopping technique
  - Outstanding solidity but extremely light
- Design model: modern design, consequently applied on each detail
  - Innovative: pushing down the board is possible with one hand by means of slight pressure on the side lever. Board clamps into place after moving per means of wedging technique
  - Triple use: suitable for magnets, writable and dry wipe. Stepless height adjustable from 127,5 cm (lowest position) to 200 cm (highest position). Board size 69 x 100,5 cm, writable surface 69 x 96 cm. Working surface made of very thick coated steel sheet on stable kernel made in sandwich technique
  - Versatile: individually slidable pad holders for all normal pad sizes (pad Art.-No. 638 78 02)
  - Multifunctional cover flap: with springs so that the pad lies flat. Rounded, so that the sheets can be turned over without creasing. Sharp edge for tearing off the sheets with one hand included
  - Well equipped: full width tray for flipchart accessories, markers etc...
  - Very stable due to the four sturdy aluminium legs 20 x 32 mm
  - Frame, stand, tray and flap made of silver anodised aluminium profiles
  - Easy to close, place saving storage if not used
  - Patent pending
  - Can be recycled to 98%, low emission production in our national plants
  - Safe and ecological packaging, can be recycled

Item	Colours	Weight	PU
637 70	95 silver	11,3 kg	1 pc(s).

FLIPCHARTS

Flipchart MAULpro, round base flip2use

- **Allrounder:** can be used as flipchart, whiteboard or projection screen for projectors and ultrashort projectors
  - **Outstanding:** whiteboard portrait or landscape format by turning the board 90°
  - **Made in Germany, 3-year guarantee**
  - **Enamel surface:** matt, extremely scratch resistant, non-wearing and ecological
  - **Durable:** 30-year guarantee on the surface if used in proper way
  - **Convenient:** easy to clean surface, resistant against acid and base, protected from oxidation
  - **Mobile:** easy to move without effort due to the round form of the base and the 5 lockable wheels
  - **Durable:** very sturdy material, strong joints, elaborate manufacture
- Versatile: stepless height adjustment (from the front side) from 148 - 190 cm in portrait orientation or from 136 - 178 cm in landscape orientation (lower/upper position). Does not fall down unintentionally
  - Easy to turn: release the clamping lever, turn the board and tighten the lever again
  - Swivel joint made of plastic material, stable and with excellent wear resistance
  - Surface, 73 x 101 cm, suitable for magnets writable and dry-wipe
  - Extra large steel surface, enamel coated, on stable sandwich kernel
  - Brilliant: stability of metal combined with the hardness and wear resistance of glass covering
  - Versatile: pad holders can be individually slidden horizontally to match with the common paper pads formats (pad Art.-No. 638 78 02)
  - Slidable plastic tray for markers and accessories
  - Very stable: round base Ø 63 cm and column made of strong steel tube
  - Can be recycled to 98%, low emission production in our national plants
  - Safe and ecologic packaging, can be recycled

Item	Colours	Weight	PU
637 08	84 grey	16,5 kg	1 pc(s).

Portrait or landscape format by turning the board 90°

FLIPCHARTS

Flipchart MAULsolid, round base flip2use

- **Outstanding:** portrait or landscape format by turning the board 90°
  - **Can be used as flipchart or projection screen**
  - **Sturdy:** very strong joint made of wear resistant plastic material
  - **Designed by MAUL:** developed and designed in our German plant
  - **Mobile:** easy to move without effort due to the round form of the base and the 5 lockable wheels
  - **Large stowable tray** for markers and accessories, made of aluminium
- Versatile: stepless height adjustment (from the front side) from 154 - 196 cm in portrait orientation or from 136 - 176 cm in landscape orientation (lower/upper position). Does not fall down unintentionally
  - Easy to turn: release the clamping lever, turn the board and tighten the lever again
  - Coated steel board 66 x 97 cm, suitable for magnets writable and dry-wipe to a certain extent
  - Versatile: pad holders can be individually slidden horizontally to match with the common paper pads formats (Pad Art.-No. 638 78 02)
  - Cover flap with spring mechanism for pressing the paper flat and for holding the flap open to change the pad, can be used as a tear-off edge for the paper
  - Very stable: round base Ø 63 cm and column made of strong steel tube
  - Safe and ecologic packaging, can be recycled

Item	Colours	Weight	PU
637 06	82 grey	16,74 kg	1 pc(s).

Portrait or landscape format by turning the board 90°

FLIPCHARTS

SNAP FRAMES

Snap frame MAULstandard

- Ideal for the interior professional presentation of information, placards and posters
  - Simple exchange of contents from the front side: open snap frame, remove the protection sheet, insert contents and protection sheet, close the frame - finished
  - UV-stabilised anti glare front sheet protects your contents from fading
- Flat silver anodised aluminium frame, 25 mm
  - Mitred corners
  - Shock-proof polystyrene rear panel
  - Simple wall assembly thanks to concealed holes in the profile

Item	Colours	Outer dimensions	Format	Visible size	PU
660 44	08 aluminium	33 x 24 x 1,2 cm	A4	28 x 19 cm	1 pc(s).

660 40	08 aluminium	122 x 87 x 1,2 cm	A0	117 x 82 cm	1 pc(s).

A-BOARD

A-Board MAULpublic

- Double-sided A-Board, ideal for the professional presentation of information, placards and posters both indoor and outdoor
  - Weather-resistant with integrated water outflow holes in the bottom profiles
- Simple exchange of the contents from the front side: open the snap frame, remove the protection sheet, insert the contents and the protection sheet, close the frame - finished
  - UV-stabilised anti glare sheet protects your contents from fading
  - Silver anodised aluminium frame, 25 mm profile
  - Non-corrosive heavy metal rear panel for higher stability
  - Stable foldable aluminium frame

663 82	05 transparent	A2	1 ctn.

MAGNETS

»HOW MUCH CAN A MAGNET HOLD?

The adhesiveness of a magnet is measured in kg. A normal misunderstanding is to believe that this is the same as the weight that the magnet can hold! An example: A magnet with 1 kg adhesiveness could hold a weight of 1 kg on the wall.

The specified adhesiveness is generally measured under these prescribed, constant conditions:

In practical use the adhesiveness of a magnet is reduced immensely by many different factors, e.g. by the composition of the product (smooth film compared to rough paper) or by the composition and strength of the backing board used. For this reason a 10 mm thick steel sheet is used as a backing board when determining the adhesion of the magnet. In comparison: A whiteboard steel board is between 0,25 - 0,45 mm thick, thus only one fortieth thereof. For this reason a magnet with 1 kg adhesive force can hold considerably less on a whiteboard. Due to many factors it is not possible to give precise details on how much a magnet can hold. As an orientation here is an example from our test laboratory:

Art. No.	617 51	617 71	617 91	616 86	616 88	616 94
Strength [kg]	0,17	0,6	1,0	3,5	14	20
Paper sheets [pcs.]	4	7	10	14	40	60

DIN A4 pages (80g/m²) were attached to a 0,45 mm thick coated steel whiteboard at room temperature. The determined values are only for orientation purposes and we assume no liability for these measurements.

More information about adhesion force can be found under [www.maul.uk](http://www.maul.uk)

MAGNETS

Writable marking tape, magnetic

NEW

- Practical: for changing labelling on ferrous shelves in warehouses or sales rooms
- Also in schools, offices, cellars, kitchens or on whiteboards
- One side plastic coated, the opposite side magnetic
- How to: cut the marking band, mark, apply on the iron surface - done
- Can be written on with felt pens and markers

- Flexible magnetic tape, gauge 1 mm, choice of various widths
- Customized: cut at the desired length with common scissors
- Strength 42 g/cm²
- Colours 15, 25, 37, 55: expected availability end of April 2021

Item	Colours	Width	Length	PU
652 31	02 white	1 cm	3 m	1 pc(s).

MAGNETS

Magnetic tape, self-adhesive

NEW

- **Make your own magnets: with small objects, photos or other artworks**
- **One side self-adhesive, the other side magnetic**
- **Instructions: cut the magnetic tape, stick it, that's it**
- **Advantage of magnetic band: can't be seen from the front, flat application**

- Flexible magnetic band, 1 mm thick, several sizes available
- Cutting: can be cut to length with normal scissors
- Strength approx. 40 g/cm<sup>2</sup>
- Art. No. 615 65 09 and 615 67 09: expected availability end of April 2021

Item	Colours	Width	Length	PU
615 72	09 other	1 cm	10 m	1 pc(s).

Magnetic labels

- **Ideal for ferruginous surfaces**
- Plastic frame with transparent coating
- Inlets white on both sides, 7,5 x 2 cm
- Size 8 x 2,5 cm

Item	Colours	Pieces/PU	PU
651 98	82 grey	10 pcs.	1 bag(s)

MAGNETS

» FERRITE OR NEODYM MAGNET ?

**Ferrite magnets** are worldwide the most-produced magnets and they are the classical office magnets. They are more robust and cheaper than neodymium magnets. With their colourful plastic covers one can accentuate as one pleases. The shipping is uncritical (except for airfreight).

**Neodymium magnets** have a high adhesive force compared with their volume, i.e. very small magnets can be very strong. Neodymium magnets should be used with caution. They are more sensitive than ferrite magnets, they can splitter easily and the oxidate quickly when the protection layer is removed. Children should not play with them. There are special safety rules which apply when using or sending neodymium magnets. Details are available under [www.maul.uk](http://www.maul.uk).

The adhesive force of ferrite and neodymium magnets does not weaken under normal conditions of use.

Facetted edge magnet MAULpro

- **The original from MAUL: a real classic, distinctive design and functionality**
- **Made in Germany**
- **Elegant: facetted highly polished edge, surface with rough matt finish**
- **Safe hold: a special glue ensures a strong fixing from the magnet kernel in the housing**
- The bottom of the ferrite magnet is lacquered for protection of the board surface
- Ideal: in the office or for representative purposes
- Stable: housing made of shock-proof plastic
- Low emission production in local plant
- Set "assorted colours" (99) containing : 4 each in white, yellow, blue, 3 red, 3 green, 2 black
- Comprehensive: many colours, shapes and sizes available
- 20 pieces on steel sheet with European hanging perforation

MAGNETS

Industrial magnet

- **Sturdy:** housing made of shock-proof plastic
  - **Particularly wear resistant**
  - **Made in Germany**
  - **Nearly indestructible:** particularly suitable for workshops
  - **Ideal:** also for production areas (many ferruginous surfaces can be used), e.g. to fix information on machines or to be used on metal locker or on racks for inventories
  - **Safe hold:** a special glue ensures a strong fixing from the magnet kernel in the housing
- The bottom of the ferrite magnet is lacquered for protection of the board surface
  - Low emission production in local plant
  - Nothing is lost: on convenient steel sheet with European hanging perforation

Item	Colours	Size	Strength	Pieces/PU	PU
617 23	13 yellow, 25 red, 35 blue, 55 green, 84 grey	Ø 29 x 8,5 mm	0,6 kg	10 pcs.	1 set(s)

Disc magnet, silicone

NEW

- **Complete silicone encasement**
- **For the price conscious**
- **Protects the fixing surface and the magnetic core**
- **Easy to grip:** removal without slipping fingers
- **Especially suitable for workshops**
- **Also ideal to fix information on machines, metal lockers or on metal racks for inventories**

- Ferrite disc magnet
- Holds on both sides
- Expected availability June 2021

Item	Colours	Size	Strength	Pieces/PU	PU
616 12	99 assorted colours	Ø 32,6 x 9,8 mm	0,8 kg	4 pcs.	1 set(s)

MAGNETS

Neodymium silicone disc magnet

NEW

- **Advantage of the neodymium magnets:** strong magnetic attraction on small volume
  - **Complete silicone encasement**
  - **Holds on both sides**
  - **Protects the fixing surface and the magnetic core**
- Easy to grip: removal without slipping fingers
  - Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)

Item	Colours	Size	Strength	Pieces/PU	PU
616 66	99 assorted colours	Ø 19,2 x 4 mm	0,8 kg	10 pcs.	1 set(s)

Neodymium disc magnet, silicone

NEW

- **Advantage of neodymium:** strong magnetic attraction on small volume
  - **Holds on both sides**
  - **Protects the fixing surface and the magnetic core**
- Easy to grip: removal without slipping fingers
  - Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)
  - Expected availability June 2021

Item	Colours	Size	Strength	Pieces/PU	PU
616 64	99 assorted colours	Ø 14,6 x 9 mm	1,5 kg	8 pcs.	1 set(s)

Neodymium silicone ball magnet

NEW

- **Advantage of the neodymium magnets:** strong magnetic attraction on small volume
  - **Complete silicone encasement**
  - **Holds on all sides**
  - **Protects the fixing surface and the magnetic core**
- Easy to grip: removal without slipping fingers
  - Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)

Item	Colours	Size	Strength	Pieces/PU	PU
616 75	35 blue	Ø 11,8 mm	0,6 kg	4 pcs.	1 set(s)

MAGNETS

Neodymium cone magnet NEW

- **Advantage of the neodymium magnets: strong magnetic attraction on small volume**
- **In trendy colour combinations**
- **Conical**
- **Accentuate, highlight oder just enjoy the colours**
- **User-friendly: easy to grip and to remove**
- Strong neodymium magnet covered with coloured plastic layer
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)

**COLOUR MY WORK**

These colours bring a breath of fresh air into everyday office life and can be combined perfectly. Discover more ideas about Colour my Work in the Lighting and Office accessories sections or on [www.maul.uk](http://www.maul.uk)

Neodymium cone magnet

- **Advantage of the neodymium magnets: strong magnetic attraction on small volume**
- **Easy to grip thanks to conical form**
- **Versatile: e.g. to hang signboards or keys**
- **Suggestion: fix a cable or a band between 2 pin magnets and hang documents on it with maulys® e.g. pictures**
- Strong: housing made of steel
- Aesthetic in shape and surface, fits discretely in any environment
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)
- 616 89: Particularly powerful: 22 kg

618 30	96 light silver	Ø 20 x 5 mm	6,2 kg	4 pcs.	1 set(s)
618 32	96 light silver	Ø 20 x 10 mm	12 kg	4 pcs.	1 set(s)

Art. No. 616 71: one side self-adhesive

MAGNETS

Neodymium ring magnet

- **Advantage of the neodymium magnets: strong magnetic attraction on small volume**
- **Ring shape: subtle, elegant and very flat**
- **Practical: marking small texts, Ø outer 1,2 cm, inner 0,9 cm**
- **Can be used on both sides**
- **Pure, elegant and modern: for design oriented users, in prestigious areas, agencies, museums**

- Aesthetic in shape and surface, looks elegant on boards or ferrostrips
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)

Item	Colours	Size	Strength	Pieces/PU	PU
616 83	96 light silver	Ø 12 x 1,5 mm	0,5 kg	10 pcs.	1 set(s)

Neodymium cube magnet

NEW

- **Advantage of the neodymium magnets: strong magnetic attraction on small volume**
- **Practical: can be used on all sides**
- **Cube: aesthetic in shape and surface, fits discretely in any environment**
- **Pure, elegant and modern: for design oriented users, in prestigious areas, agencies, museums**

- Aesthetic in shape and surface, looks elegant on boards or metal strips
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)
- Art.-Nos. 618 40 - 618 43: expected availability June 2021

Item	Colours	Size	Strength	Pieces/PU	PU
618 40	96 light silver	5 x 5 x 5 mm	1,1 kg	10 pcs.	1 set(s)
618 41	96 light silver	7 x 7 x 7 mm	1,6 kg	10 pcs.	1 set(s)
616 92	96 light silver	10 x 10 x 10 mm	3,8 kg	4 pcs.	1 set(s)
618 43	96 light silver	10 x 10 x 10mm	3,8 kg	10 pcs.	1 set(s)
616 93	96 light silver	15 x 15 x 15 mm	15 kg	1 pc.	1 pc(s).
616 94	96 light silver	20 x 20 x 20 mm	20 kg	1 pc.	1 pc(s).

Neodymium ball magnet

- **Advantage of the neodymium magnets: strong magnetic attraction on small volume**
- **Pure, elegant and modern: for design oriented users, in prestigious areas, agencies, museums**
- **Holds on all sides**

- Aesthetic in shape and surface, looks elegant on boards or metal strips
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)

Item	Colours	Size	Strength	Pieces/PU	PU
616 74	96 light silver	Ø 10 mm	1,5 kg	4 pcs.	1 set(s)
616 76	96 light silver	Ø 15 mm	4 kg	4 pcs.	1 set(s)

MAGNETS

Neodymium bar magnet

- **Advantage of the neodymium magnets: strong magnetic attraction on small volume**
- **Pure, elegant and modern: for design oriented users, in prestigious areas, agencies, museums**
- **User friendly: easy to grip and to remove**
- **Can be used on both sides**
- Aesthetic in shape and surface, looks elegant on boards or steel strips
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)

Item	Colours	Size	Strength	Pieces/PU	PU
616 90	96 light silver	4 x 4 x 15 mm	2 kg	4 pcs.	1 set(s)

Large power magnetic knob, coat hook

NEW

- **Strong magnet with large knob**
- **Powerful: strong magnetic adherence**
- **Ideal: also for production areas (many ferruginous surfaces can be used), e.g. to hang workwear on metal locker or for bags and information**
- **Easy grip: 16 mm gap between knob and magnet**
- Robust: steel housing, knob made of shock-proof plastic
- Soft: a felt cover on the bottom of the ferrite magnet protects the fixing surface
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Art. nos. 615 48, 615 49: expected availability June 2021

Item	Colours	Size	Strength	PU
615 48	96 light silver	Ø 38 x 24 mm	5 kg	1 pc(s).
615 49	96 light silver	Ø 51 x 24 mm	9 kg	1 pc(s).
615 50	96 light silver	Ø 67 x 35 mm	12 kg	1 pc(s).

Hook magnet caroussel

- **Outstanding: hook can be turned and slanted, to be used on ceiling or inclined surfaces**
- **Strong: large curved metal hook, safely rounded front**
- **For everything to be hung, e.g. keys, information signs or light clothes**
- Solid: steel case
- Protection film on the bottom of the ferrite magnet
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension

Item	Colours	Size	Strength	Pieces/PU	PU
615 57	02 white, 90 black	Ø 37 x 60 mm	5 kg	2 pcs.	1 set(s)

MAGNETS

Neodymium hook magnet caroussel, coat hook

NEW

- **Particularly powerful**
- **Rotating hook (length approx. 55 mm), can also be used as ceiling hook or used on slanted surfaces**
- **For everything that can be hung, e.g. workwear on metal locker, decoration material or for bags and information signs**
- **Large curved metal hook, with safe rounded point**
- Solid: steel housing
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Please follow the safety instructions for neodymium magnets you will find on [www.maul.uk](http://www.maul.uk)

Item	Colours	Size	Strength	PU
615 56	96 light silver	Ø 38,5 mm magnet	30 kg	1 pc(s).
615 60	96 light silver	Ø 38,5 mm magnet	50 kg	1 pc(s).

Neodymium hook magnet caroussel, coat hook

- **For everything that can be hung up, e.g. keys, information signs or light clothes**
- **Advantage of the neodymium magnets: strong magnetic attraction on small volume**
- **Robust plastic, rotative hook, safely rounded front**
- **Rubber layer decrease sliding, so more power is needed to slide downwards**
- Plastic housing
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)

Item	Colours	Size	Strength	PU
615 51	90 black	Ø 53 mm magnet	10 kg	1 pc(s).

MAGNETS

Neodymium magnet with hook for clothes

NEW

- For everything that can be hung up, e.g. keys, information signs, light clothes or decoration material
- Advantage of the neodymium magnets: strong magnetic attraction on small volume
- Practical: on the metal shelf, the metal door, the locker or the fridge door
- Hook in elegant design with grey plastic housing
- Includes rubberised anti-slip dots for better grip
- Matt surface
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension
- Please observe the security advice for neodymium magnets on [www.maul.uk](http://www.maul.uk)
- Expected availability June 2021

Item	Colours	Size	Strength	Pieces/PU	PU
615 54	82 grey	34 x 24 mm	6 kg	2 pcs.	1 set(s)

Power magnet with hook

- Particularly strong magnetic adherence
- For do-it-yourself: hook can be removed and something else can be screwed on the magnet (metric thread, M4)
- For everything that can be hung up, e.g. keys, information signs or light clothes
- Solid: steel housing
- Ferrit kernel
- Nothing is lost: on convenient steel sheet

Item	Colours	Size	Strength	Pieces/PU	PU
615 78	02 white	Ø 25 x 36 mm	3 kg	5 pcs.	1 bag(s)
615 80	02 white	Ø 36 x 36 mm	6 kg	5 pcs.	1 bag(s)
615 90	02 white	Ø 47 x 36 mm	12 kg	5 pcs.	1 bag(s)

MAGNETS

Double hook magnet carroussel

- For everything to be hung, e.g. keys, information signs or light clothes
- Considerable strength: 18 kg
- Ideal for: applications during production, in the workshop or at school
- Large curved metal hook, safely rounded front
- Solid: galvanized steel case with plastic coating
- Ferrite magnet
- Looking screw made of breakproof plastic material
- Lengths of hook: 25 and 40 mm
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension

Item	Colours	Size	Strength	PU
615 59	35 blue	Ø 58 x 12 mm	18 kg	1 pc(s).

Large hook magnet

- Outstanding: can also be used as a ceiling hook
- For everything that can be hung up, e. g. keys, information signs or accessories on cords
- Convenient: large curved hook
- Solid: steel housing
- Protection sticker on underside of the ferrite magnet
- Environmentally friendly cardboard packaging, recyclable, with Euro-hole suspension

Item	Colours	Size	Strength	PU
615 55	96 light silver	Ø 51,5 x 35 mm	9 kg	1 pc(s).

» MAUL PRODUCTS WITH ADVERTISING INSCRIPTION

Many of our products can be inscribed with customised advertising if purchased in sufficient quantities. Here are some examples of the numerous design options. The products are mostly screen printed or pad printed; multicolour and special colour printing is possible. Feel free to contact us for advice on the various printing options available.

## »WORKPLACE DESIGN

In tomorrow's world of work, the focus is on flexibility and well-being. If you also value efficiency, you'll be aiming to create an attractive, healthy and ergonomic working environment. In this area we see ourselves as partners, offering products that are both practical and aesthetic.

And you can depend on first-class brand quality from a German manufacturer to do its job while you do something to improve your posture. Stylish, versatile and intelligent – we understand the needs of modern-day office work.

# »FOCUSING ON PEOPLE

Whether you work from home or in an open-plan office, at a sewing machine or a PC, expectations of the workplace have increased in recent years. In addition to the basic essentials, such as ergonomics and sufficient space, emotional well-being has become an important item on the wishlist for an optimal workplace. Products from MAUL make all these things easier to achieve while also providing a pleasing aesthetic.

## ERGONOMICS

An ergonomic work environment helps maintain good health and increase efficiency on a long-term basis. It is important that the furniture can be adapted to the individual.

When it comes to correct posture, the first thing to consider is your sitting position. You are sitting at the right height if your lower and upper arms form a right-angle when resting on the desk. The same applies to the angle between your thigh and your torso and between your lower leg and your thigh.

If your feet are not resting firmly on the floor when you are sitting at the correct height, this problem can be overcome by using a footrest. Make sure you have enough legroom to avoid a twisted posture. Correct sitting posture also means making full use of the seat surface. Sit straight in front of the monitor and avoid turning from side to side. Adjust the backrest to a movable position; leaning against the backrest should not require any effort.

## MOBILITY

Moving around at regular intervals is good for your musculoskeletal system. Stand up when you're on the phone. Place documents that you only need once a day away from your desk so that you're forced to stand up to fetch them. Complement your workplace with a height-adjustable standing table; alternate between a standing and sitting position when working. Mobility helps prevent back and neck disorders. Fill up on vitamin D by taking a brief walk during your break, give your eyes a rest by looking into the distance, and relax your muscles.

## SPACE REQUIREMENTS

A lot of productive time is lost while looking for documents. Get yourself organised. Too many documents on your desk are only a distraction. Tidying up your desk helps you keep a clear head. With the help of standing or clamp-on desk shelves, you can increase your work surface even in small spaces. Memos can be attached to a magnetic wall strip; for larger documents a plan holder is the best option.

## WELL-BEING

A pleasant environment makes work easier, thereby improving your motivation and hence your productivity. In addition to the colour scheme, comfort and design are decisive factors in creating a feel-good atmosphere. A stylish wall clock, a designer lamp with variable colour temperatures or an elegant coat stand can provide the workplace with the desired aesthetic appeal.

## COAT RACKS

## Coat rack MAULsalsa

NEW

- Premium, elegantly designed and sturdy coat rack
- Compact model with plenty of storage space
- Holds many garments: 8 hooks for hanging items of clothing, two additional hooks on the stand for children's coats or handbags
- Ingenious: stands can also be used to hang up caps, bicycle helmets and accessories
- Very sturdy design with a large base plate of heavy-gauge steel
- Multifunctional: also suitable for airing jackets and shirts
- Best suited to offices, reception rooms, surgeries and publicly accessible areas

- A professional touch: over 100 years of metalworking experience
- Made of sturdy, powder-coated metal in black matt
- Load: hanging rail 40 kg or 12 jackets + 8 hooks each loadable up to 10 kg + hooks for handbags
- Firmly screwed hooks made of chromium-plated metal – no rocking, Ø 2 cm, conical shape for optimum support of the clothes
- Large, flat steel base plate 52 x 40 cm, 5 mm thick – improves stability and reduces trip hazard
- Felt floor protectors on underside of base
- Colour black RAL 9004
- Easy to assemble
- Recyclable: disassemble and recycle

Item	Colours	Height	Weight	PU
940 78	90 black	172 cm	15,5 kg	1 pc(s).

## Coat rack MAULcaligo

- High-quality freestanding steel coat rack for continuous use
- Holds lots of garments
- Sturdy and elegant: steel post, matt black powder-coating
- Extremely stable: heavy plastic coated concrete base and felt floor protectors
- MAUL design: glossy base with matt distressed surface, scratch-resistant for umbrella tips
- Clever: 4 additional hooks on the post for light garments or accessories, 4 more on the umbrella stand for pocket umbrellas
- Particularly suitable for high traffic: public areas, foyers, offices

- From the pro: over 100 years of metalworking experience
- Post Ø 5 cm
- 32 plastic hooks made from break-proof ABS: 8 hat hooks, 16 coat hooks, 4 additional hooks on both the post and umbrella stand
- Spin top, Ø 46 cm, for easy access from all sides
- With umbrella stand, Ø 27 cm, for up to 8 umbrellas and 4 telescoping umbrellas
- Base Ø 36,5 cm, weight 6 kg
- Colour black RAL 9004
- Easy to assemble
- Recyclable: disassemble and recycle

Item	Colours	Height	Weight	PU
940 80	90 black	175 cm	9,6 kg	1 pc(s).

COAT RACKS

Coat rack MAULnebula

- **Elegant freestanding steel coat rack for heavy use**
- **Sturdy and elegant: glossy metallic look post and hooks**
- **Extremely stable: heavy plastic coated concrete base and felt floor protectors**
- **MAUL design: glossy base with matt distressed surface, scratch-resistant for umbrella tips**
- **Clever: 4 additional hooks on the post for light garments or accessories, 4 more on the umbrella stand for pocket umbrellas**
- **Fixed with screws: plastic tips are tight and won't wobble**
- **Particularly suitable for high exposure areas, e.g. cafés, foyers, waiting rooms**
- Safe: rounded plastic tips are easy on clothing
- From the pro: over 100 years of metalworking experience

UNIVERSAL STANDS

» HIGH DESKS:  
ERGONOMIC AND EFFICIENCY-IMPROVING

As a standing work station for storage, laptop work or making phone calls, as a discussion or projection table, or to extend table depth - high desks fulfil many different functions and save you tones of money at the same time.

Poor posture when working at a desk can reduce a worker's productivity by up to 40%. Mobility is a blessing for your musculoskeletal system, as a fixed working posture is avoided and stress on the spine is reduced. Switch between working sitting down and standing up with a high desk. Place your phone on the desk so that you will always have to stand up when it rings.

Keep a minimum distance of 50 cm between you and your monitor. More is better - you can do this if you place the high desk behind your desk at the same height as the desk and place the monitor on it.

The work surface recommended by the German Employer's Liability Insurance Association is 160 x 80 cm, which is often not complied with. Invest in a high desk and save on time lost due to searching for documents to increase productivity.

Professional monitor lectern with flat screen arm

- **Maximum stability and top quality**
- **Made in Germany, guarantee 3 years**
- **Complete: with flat monitor arm for screens up to 8 kg, two adapters, PC holding and keyboard tray**
- **Strong: high quality materials, robust processing technique**
- **Sitting or standing: stepless adjustable height from 75 cm (sitting height) to 120 cm, platform can be tilted forward + 10°**
- **Safe: gentle lowering of desk by means of air damp technology prevents stand from suddenly giving way**

- Versatile and healthy: for dynamic office work part-time sitting/part-time standing, or compact workplace, e.g. in sales rooms
- Attachment according to VESA-standard (Video Electronics Standard Association), two adapters included 7,5 x 7,5 cm or 10 x 10 cm
- 3 joints for every angle option: adjustable 180° upwards/downwards and to the left/right, monitor connection can be turned up to 270°
- Stable: strong steel arm, made of 6 mm steel, powder-coated
- Adjustable sight distance: screw fixing can be released and slipped (under the platform) by 5 cm
- Sturdy: steel PC holder 40 x 15,5 x 25,5 cm (w x d x h ), mountable on both sides
- Firmly fixed: two included flat belts secure the PC, even while moving the stand
- Non-wearing: platform, maximum load 30 kg, rounded, easy to clean
- Aluminium keyboard tray, can be pulled out 5,5-21 cm, width 39 cm, with raised edge at front
- Massive: steel telescopic column, external Ø 6 cm
- Safe locking by means of ergonomic clamp screw, to be used without effort
- Star base Ø 61 cm, made of robust die-cast aluminium with 5 locking castors
- Protected: external column and base powder coated, internal column zinc-plated
- Developed with 100 years know-how in metal-processing

Item	Colours	Surface	PU

» IMPROVE YOUR WORKSTATION  
WITH FOOTRESTS

Using a footrest, you can create a stress-free and ergonomically-efficient workstation in three easy steps.

**The first step:**

Correctly position your seat.  
Your upper arm must be vertical, while your lower arm must be parallel to the table's surface – the height of the seat's surface must be adjusted.

**The second step:**

Your thigh should lie horizontally on the seat  
– the height of the footrest must be adjusted.

**The third step:**

Your thigh and lower leg should form an angle of at least 90° – the incline of the footrest must be adjusted.

Poor posture when working at a desk can reduce a worker's productivity by up to 40%. The footrest prevents unnecessary performance loss due to poor posture at work, as it facilitates a comfortable and relaxed posture.

COPY HOLDERS

Copy holder universal with double arm and clamp base

- **Work conform adjustment of the sighting distance**
- **Work is less tiring, fewer mistakes**
- **Made in Germany, guarantee 3 years**
- **A4 holder, revolves through 360°**
- **Can be used separately as a clipboard by withdrawing it from the holder**
- Fewer head movements
- Gentle on head, neck and eyes
- Portrait and landscape format possible, line guides can be switched
- Non central attachment of clipboard to arm possible

- Informing using magnets
- Extra long: magnetic wall rail on a roll, can be hung from wall to wall and around the corner
- Cut to required length with normal scissors
- For kindergarten, schools, meetingrooms, galleries or advertising agencies
- Made in Germany, 3-year guarantee
- Easy mounting: equipped with self-adhesive foam to balance out uneven wall surfaces, leaves residues when removing
- Non-scratch surface: white coated steel sheet, material thickness 0,13 mm

- Restrained, permanent and low-cost: information becomes more visible, e.g. drawings, memos, plans, pictures etc.
- Can be used individually or joined together
- Surface must be clean and dust-free
- Only restrictedly suitable for structured walls and painted surfaces
- Magnets not included
- 621 00: Includes 3 blue round magnets, Ø 30 mm
- 621 20: Packed in a practical dispensing box

Item	Colours	Length	Width	PU

PRESENTER AND ACCESSORIES

Mobile presenter

- **Highly functional:** for presenting info-sheets: posters, proofs, technical drawings, flipchart sheets
  - **Versatile:** for changing venues, easily moved thanks to castors
  - **Made in Germany, guarantee 3 years**
  - **Flexible:** free-standing or between 2 desks
  - **Advantage of the magnetic clips:** documents only have to be pushed into the clips and they snap shut themselves, thus allowing large documents to be affixed by one person
  - **Attractive design, high quality material**
- Creates space: 3 aluminium swivel arms AO (132 cm, 80 g/m²) with 3 sliding magnetic clips each
  - Can be extended for up to 6 arms (Art. No. 626 00 08 or 626 10 08)
  - Documents can be hung on various clips, showing both sides
  - Suitable for paper and other material as well, like cloth or slides upto approx. 100 g/m², depending on surface and thickness
  - Clever: swivel arm with automatic braking for individual height adjustment, horizontally adjustable
  - When not in use, the arms can be folded down out of the way
  - Stable aluminium support Ø 30 mm
  - Telescopic adjustable from 140 - 200 cm
  - Elegant: very flat roller base
  - Stable roller base with 5 special castors integrated
  - Base cone-connection for simple assembly
  - Safe: height adjustment with integrated brake and signal-coloured arm ends
  - Colours: black-silver in combination with locking parts in grey
  - Magnetic clips lacquered on the inside to avoid rupture when pulling documents from closed clips
  - Can also be used with rollerclips V (Art. No. 625 20 84)
  - Safe and ecological packaging, can be recycled

Item	Colours	PU
625 60	84 grey	1 pc(s).

PRESENTER AND ACCESSORIES

Table presenter

- **Highly functional:** for presenting info-sheets: posters, proofs, technical drawings, flipchart sheets
  - **Space-saving:** stable steel clamp
  - **Made in Germany, guarantee 3 years**
  - **Advantage of the magnetic clips:** documents only have to be pushed into the clips and they snap shut themselves, thus allowing large documents to be affixed by one person
- Aluminium swivel arm A1 (100 cm, 80 g/m²) with 3 sliding magnetic clips
  - Can be extended for up to 4 arms (Art. No. 626 00 08 or 626 10 08)
  - Documents can be hung on various clips, showing both sides
  - Suitable for paper and other material as well, like cloth or slides upto approx. 100 g/m², depending on surface and thickness
  - Clever: swivel arm with automatic braking for individual height adjustment, horizontally adjustable
  - When not in use, the arms can be folded down out of the way
  - Stable silver anodised support extendable to 120 cm above the desk
  - Safe: height adjustment with integrated brake and signal-coloured arm ends
  - Steel clamp with plastic housing suitable for desks up to 6 cm thickness
  - Colours: black-silver in combination with locking parts in grey
  - Magnetic clips lacquered on the inside to avoid rupture when pulling documents from closed clips
  - Can also be used with rollerclips V (Art. No. 625 20 84)
  - Safe and ecological packaging, can be recycled

Item	Colours	PU
625 50	84 grey	1 pc(s).

PRESENTER AND ACCESSORIES

Wall presenter

- **Highly functional:** for presenting info-sheets: posters, proofs, technical drawings, flipchart sheets
  - **Swivelable:** can be mounted on the wall
  - **Made in Germany, guarantee 3 years**
  - **Advantage of the magnetic clips:** documents only have to be pushed into the clips and they snap shut themselves, thus allowing large documents to be affixed by one person
  - **Including mounting material**
  - **Attractive design, high quality material**
- Creates a lot of space: 2 aluminium swivel arms A0 (132 cm, 80 g/m²) with 3 sliding magnetic clips each
  - Can be extended to up to 8 arms (Art. No. 626 00 08 or 626 10 08)
  - Documents can be hung on various clips, showing both sides
  - Suitable for paper and other material as well, like cloth or slides upto approx. 100 g/m², depending on surface and thickness
  - Clever: swivel arm with automatic braking for individual height adjustment, horizontally adjustable
  - When not in use, the arms can be folded down out of the way
  - Stable silveranodised aluminium vertical support
  - Safe: height adjustment with integrated brake and signal-coloured arm ends
  - Colours: black-silver in combination with locking parts in grey
  - Magnetic clips lacquered on the inside to avoid rupture when pulling documents from closed clips
  - Can also be used with rollerclips V (Art. No. 625 20 84)
  - Safe and ecological packaging, can be recycled

Item	Colours	PU
625 30	84 grey	1 pc(s).

PRESENTER AND ACCESSORIES

Swivel arm for presenter

- **For extension of presenters (please observe max. load)**
  - **Made in Germany, guarantee 3 years**
  - **Both sides can be equipped with magnetic clips V and roller clip V**
  - **Automatic braking for vertical adjustment**
- Noble: aluminium, silver anodised
  - Safe: signal-coloured arm ends

Item	Colours	Length	Format	PU
626 00	08 aluminium	132 cm	A0	1 pc(s).
626 10	08 aluminium	100 cm	A1	1 pc(s).

Magnet clip V

- **Sliding magnetic clips: for extension of swivel arms**
  - **Made in Germany, guarantee 3 years**
  - **With magnetic snapping mechanism**
  - **Clever: large documents can be affixed by one person**
- The way it goes: open clips (automatically stay open) enter documents and clips snap shut themselves and stay closed
  - Magnetic clips lacquered on the inside to avoid rupture when pulling documents from closed clips
  - Practical: integrated hook which can be used to hang up keys or pictures

Item	Colours	Size	Pieces/PU	PU
626 30	84 grey	3,6 x 4 cm	10 pcs.	1 ctn.

Roller clip V

- **Sliding roller clips: for swivel arms, wall rail and rollerclip wall rail**
  - **Made in Germany, guarantee 3 years**
  - **With roller snapping mechanism, even holds thicker documents**
  - **Clever: large documents can be affixed by one person**
- The way it goes: documents only have to be pushed into the clips and they roll shut themselves. Lift the roll to withdraw the documents
  - Practical: Integrated hook which can be used to hang up keys or pictures

Item	Colours	Size	Pieces/PU	PU
625 20	84 grey	3,3 x 3,8 cm	10 pcs.	1 ctn.

» OUR SYMBOLS

In order to understand the special advantages of our products at a glance you can find the symbols by the item.  
An additional explanation can be found here: :

Developed and produced in Germany.

All MAUL products have at least a 2 year guarantee, some chosen products 3 years.

On the enamel surface chosen whiteboards by correct use.

Approved security by TÜV Thüringen.

Approved security by Intertek.

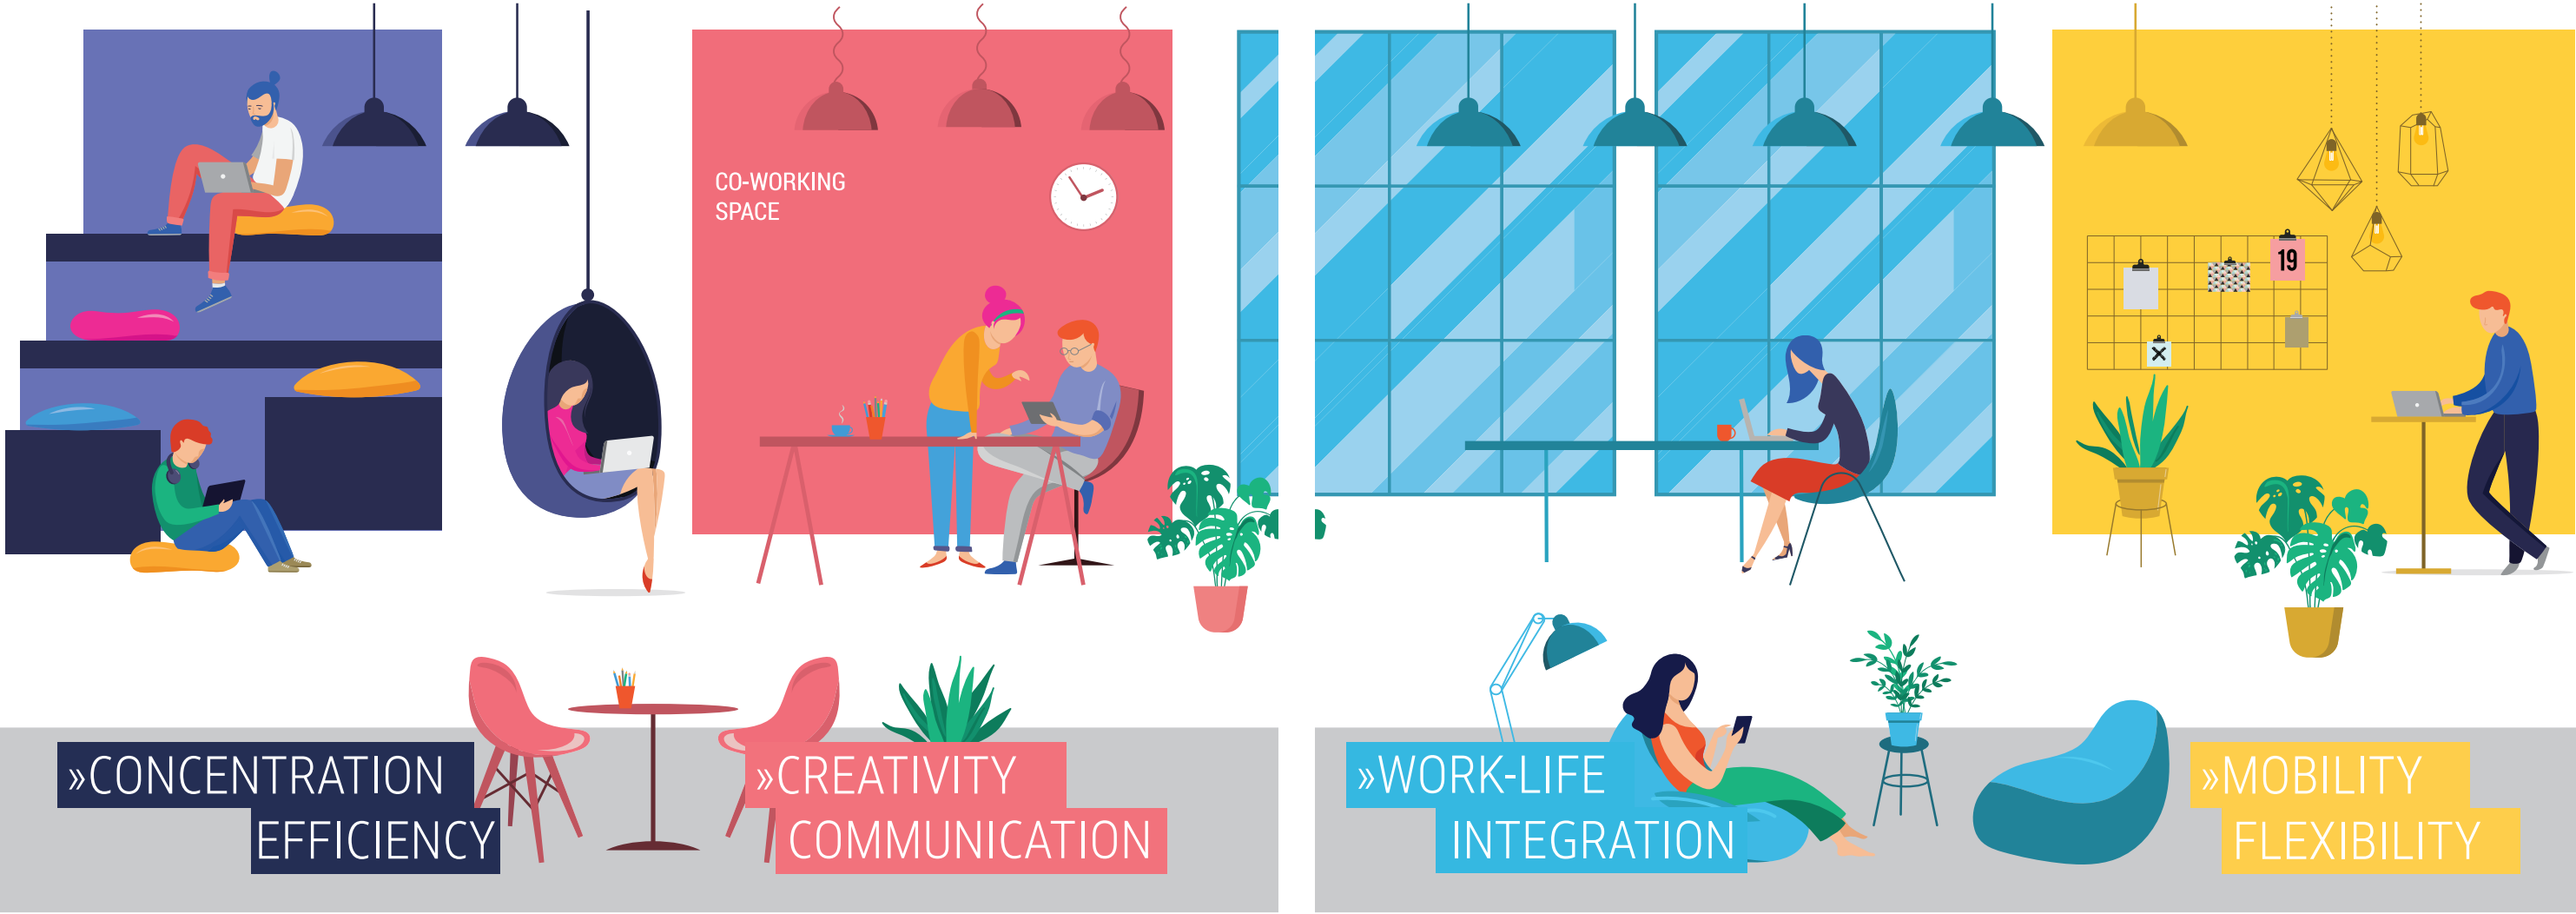

The stability is here most important.

98% of the materials used can be recycled.

# »TOMORROW'S WORLD OF WORK

## »CONCENTRATION / EFFICIENCY

The workspace is becoming a retreat for tasks that require lengthy periods of concentration. This is a peaceful environment where your stress level falls and you can work in a shielded setting without any distractions. In the case of flexible workplaces, dividing walls provide privacy. Quiet spaces and "think" spaces are used for relaxation, while also facilitating concentrated work on an individual basis. Phone calls are made from sound-insulated audio rooms where 100% silence is guaranteed. Flexible working hours and locations free up office space. Fewer mistakes are made; efficiency and productivity increase.

## CREATIVITY / COMMUNICATION

The office of tomorrow is more than just a workplace; it's a place for meeting and interacting. People meet up face-to-face to discuss ideas or findings. This communication culture facilitates creativity and rapid knowledge transfer. There need to be spaces large enough to cater for teamwork. In "smart" meeting areas, information flows faster; in work & play zones, new solutions can be developed in a fun way. Mobile presentation tools that can be adapted to the size of the team provide assistance with creative techniques. Everything is in flux.

## WORK-LIFE INTEGRATION

The boundaries between work and home are disappearing; professional and private lives are merging due to digitisation. There is a desire for feel-good surroundings that generate satisfaction and maintain health. Ergonomics are not only important in the office, but in all areas of life. Movement is being encouraged; sport and play areas are being created along with recreation zones and relaxation oases. There, in contrast to the work areas, the emphasis is on de-digitisation. Biophilic design is an ongoing trend: connectivity with nature via plants and other natural elements facilitates well-being and improves air quality.

## MOBILITY / FLEXIBILITY

Working when and where you want. Data and information come from the cloud and can be accessed anywhere via mobile devices. This means you're free to choose where you want to work, depending on your personal situation and the tasks on hand. It may mean working in co-working spaces or from home, and desk-sharing at the office the next day. Alternatively, you may find yourself doing concentrated tasks in "privacy areas" and attending a meeting in the "creative center" an hour later. When it's time for a break, you can enjoy some relaxing music in the "quiet room" before preparing for the next meeting on a train or plane.

## »CONCENTRATION EFFICIENCY

A shielded setting is the key to concentrated work. Mobile moderation boards provide the necessary privacy. At the same time, the various different surfaces can be used for visualising information. Another factor to consider is ergonomics, as body posture is mostly static in the case of focused activities; you don't move about a great deal. Therefore furniture that can be adapted to the user, such as height-adjustable desks, are important. Footrests are helpful if the desk height is unsuitable. There is also a need for lamps that can be adapted easily to movements of the desk and provide direct illumination of the workstation. The best option is variable lighting intensity and colour temperature to cater for every task.

## »WORK-LIFE INTEGRATION

This is where we appeal to the senses, as the working environment should be attractive, sustainable and comfortable. Products manufactured in Germany using low-emission methods satisfy the need to save resources. Memo boards and clipboards made from natural materials such as cork or wood also meet the need for sustainability. An attractive wall clock or coloured accessories, for example the new colours from #colourmywork, provide personal touches. Heated ergonomic footrests and standing-height tables improve physical comfort and help you stay healthy. The same applies to lamps with alternating light colours. They provide sufficient illumination for focused work and warm white light for meetings or relaxing breaks.

## »CREATIVITY COMMUNICATION

The business world is calling for products that are hard-wearing and thus meet the demands of ever-changing teams. Sturdy frames, durable materials and robust mount fittings withstand intensive use and even the most boisterous of creative thinkers. For large rooms, boards measuring up to 3 metres in width are ideal. Double-sided mobile boards with rotating panels and flipcharts are easy to roll around. Suitable for writing, drawing and clamping and usable with magnets, post-it stickers and flipchart pads – good boards are genuine all-rounders when it comes to creativity. If you're short of desk space, a standing-height table is helpful; another option for individual workers is a clipboard: the smallest flexible work surface available.

## »MOBILITY FLEXIBILITY

A highly dynamic work situation calls for tools that are adjustable, both to the task on hand and, above all, to the people – products that you can easily take with you or move around. Rolling panels and boards allow you to create flexible working areas and meeting zones, while also serving as an information medium. Movable, height-adjustable standing tables provide additional desk space as well as a surface on which to place miscellaneous items at meetings; moreover, they also ensure an ergonomic posture. Other helpful accessories include lamps that complement room lighting, provide direct illumination of the work surface and adapt to every movement of the table, or cable-free lamps that fit in your pocket. Equally useful are clipboards that can serve as a substitute for a table.
