Trend topic: Tomorrow's world of work 110-113 Tidiness is half the battle! Our innovative organisational tools help you manage your daily workload. We increase the performance of the individual products with our own development and production teams and continuously expand our range. This helps users to save time and is also rather ingenious in other respects: The product range contains many unique items in terms of their function, design and quality, as evidenced by numerous patents and utility models. And since the atmosphere should not be neglected amidst all this efficiency, we also create a pleasant desk environment with modern shapes and colours.

### FURTHER CATALOGUES

# »WHY WE THINK SUSTAINABLY

We have the privilege of living and working in a place surrounded by nature. For over a hundred years, we have been based in the Odenwald and Westerwald. Consequently, we are well aware of what we owe ourselves, our families, society and our partners. For us, appreciation of nature and respect for human beings is the key to responsible trading.

As a fourth-generation family business, we treat things with care and conduct our operations on a sustainable basis. We view the efficient use of resources throughout the entire product life cycle as a self-evident maxim. When you buy a MAUL product, you can rest assured that it was manufactured under socially responsible conditions with minimal environmental impact.

We firmly believe in Germany as a business location and have expanded our production facilities in Zell and Kirchen. We invest and pay taxes here, create and retain apprenticeships and jobs, and actively take responsibility for the future of our region.

For further information, go to **www.maul.uk** and take a look at our Sustainability Brochure.

# »WHY WE KNOW OUR TRADE

For generations, we have been manufacturing products in Bad König and Kirchen that simplify day-to-day office tasks — always with a keen eye for detail.

Our specialists in the fields of metal manufacturing, plastics production and electronics work with great care and precision on every single component. As we select the materials and develop the products ourselves, we can guarantee top quality and high-end design. Our intelligent testing processes ensure that all MAUL products conform with high safety standards and are of a consistently high quality.

To find out more, go to www.maul.de/en/company

MAUL is an international brand-name company with production facilities at two locations in Germany. Over one thousand innovative products made from plastic and metal are manufactured here. We draw on our ingenuity, experience and flexibility to design and produce a multitude of creative new products. As a result, we are able to add exciting new products to our product range year after year. This innovative capability is evident from our numerous utility models and patents.

The skills of the 190-strong MAUL workforce combined with our enthusiasm for progress and our high-tech in-house production facility are what makes us so good at what we do. We act quickly and flexibly, with a high level of motivation and identification with our work. Our focus is not on short-term solutions, but on good, durable, creative products – in line with our company philosophy, which has proved successful for more than a hundred years.

### »THE FEELGOOD FACTOR "COLOUR"

#### **COLOUR MY WORK**

KATJA PIEROTH, A QUALIFIED TEXTILE DESIGNER AND SOCIAL MEDIA EXPERT AT MAUL, ON THE NEW TREND COLOURS

### What do you think is the importance of colours in the world of work?

It is well known that colours can influence moods, and this is also true in the workplace. Whether you are working from home or in the office, the right colours can increase your sense of well-being enormously.

The furniture in most offices is finished in neutral, discreet colours. Products and accessories in accent colours help to create a more personal atmosphere in which I feel comfortable.

#### What is special about the new Lime shade of green?

Tell us something about the new MAUL colours. Which is your

Touch of Rose is my favourite shade. I really like this warm and

about it - on the contrary, this tone looks very classy! Touch of Rose can be combined in many ways: it goes elegantly with shades

of grey or black and looks cosy and modern with natural tones.

Combining it with other shades of pink is absolutely on trend. And

my current favourite look is to combine it with dark berry tones or

bright red - it makes a very stylish and extravagant impression.

feminine shade of pink. This has nothing kitschy or "princess room"

favourite colour and why?

Lime is the colour of summer. It is the perfect blend of green and yellow. Lime green exudes energy, youth and vitality. It reminds me of refreshing sparkling lemonade. It also creates a summer atmosphere for the office. Lime looks rather noble when combined with white, while pairing it with other shades of green in various shades creates a harmonious, calming spectrum. Concrete grey or anthracite complement lime green for a cool, modern look.

#### What is the Sahara shade all about?

This colour lends itself perfectly to combining with other shades. In the same way that a trench coat always looks good in beige, so do office accessories in Sahara: they fit in everywhere and create a high-quality, classy look every time. For example, Sahara looks very sophisticated in combination with chocolate tones and cool when combined with anthracite.

#### Why did you opt for Atlantic Blue?

Atlantic Blue is the colour of distance, vastness and dependability. We love blue in all its guises. However, we specifically chose this beautiful sea shade because it has a relaxing effect but also looks cool and modern at the same time. Combine it with white, grey or metallic tones to create a stylish, purist atmosphere. My secret tip would be to use Atlantic Blue in colour blocking with contrasting colours - this creates a very hip and creative look.

#### Can the colours also be combined with each other?

Absolutely! Try a combination of Atlantic Blue and Lime, for example. This creates a sense of wanderlust in the office.

### And now, to finish off, the fact check: what colours do you have on your desk?

My desk at MAUL has a light wood tone, which looks great with accessories in Touch of Rose. I love the maulys in Touch of Rose, in fact I clip them on almost everywhere - for instance, I also use them to clip annoying cables together neatly. I use a round box in Sahara and have "cobbled together" a staple dispenser - the top in Sahara, the bottom Touch of Rose. This makes me feel comfortable and inspired at work.

#### What colours does MAUL have in its range?

We are constantly playing with different colours, most often in our desk accessories. We offer the widest range of colours in desk organiser MAULrundbox and the MAULtubo pencil holder, allowing everyone to discover their favourite colour.

#### And now MAUL is introducing new colours again?

We are confident that you can make your work more enjoyable by choosing the right colours. And yes, that's why we have designed our Colour My Work collection to complement our existing colours. These are four trendy colours that will spice up an otherwise neutral workplace - and your mood!

# greener@work

# »THE NEW MAUL COLLECTION MADE OF RECYCLED PLASTIC

This is the start of our new MAUL greener@work collection: round boxes, staple and mauly dispensers and clipboards made of recycled plastic. Good for the environment, good for us all.

The new products in the greener@work collection have a double appeal: they keep your workplace tidy and protect the environment at the same time. True classics from MAUL, manufactured in Germany in a low-pollutant and socially responsible manner. 100% Made in Germany. And what's more, they are made from more than 85% recycled post-consumer plastic, i.e. from the waste of commercial and private final consumption.

#### YESTERDAY, A FLOWER TRAY -TODAY, A DESK ORGANISER

All of the products in the greener@work collection are produced in our factory in Kirchen. In an intensive series of tests, our specialists worked out the materials and composition required to produce sustainable, beautiful, but above all stable and long-lasting recycled products.

We use post-consumer materials for our products, in other words plastics that have already been used as packaging, for example. These recyclates are made from used flower trays, among other things. We use more than 90% recycled material for all our recycled products. We need new granules for the remaining percentages in order to create beautiful colours.

# SUSTAINABLE PRODUCTION, REDUCED PLASTIC WASTE

We have recently invested in new injection moulding machines in our plastics production plant and have been able to achieve energy savings of 45%. 100% of the plastic waste generated during the production process is returned to the production cycle. We are also succeeding in reducing post-consumer waste with our new greener@work series. This is because collecting, sorting and recycling protects our planet from littering and preserves plastic as a valuable raw material resource through a circular economy.

### »EUROPE'S LARGEST SELECTION

We have been manufacturing clipboards and clips in Germany for decades. Whether you need help choosing from our wide range of materials, require information on a clamp's mechanics and clamping force, or want to find out more about our reliable quality control system, one thing is for certain: this is our area of expertise. Choose from more than 90 models and 30 product lines.

#### **CLIPBOARDS AND CLIPBOARD FOLDERS**

#### Clipboard series 231 MAULpro, plastic

- The original from MAUL. A true classic, distinctive design and functionality
   Non slipping: Red, rubber-like retainer bar holds the paper in place
- · Made in Germany, 3 years guarantee
- · Strong: Large plastic clip over the full width with strong stainless steel spring (except for 2318202)
- · Comprehensive: A wide choice of formats
- Proven quality
- Sturdy: made of shock-proof plastic material
- Rubber retainer bar over the full width of the board
- Convenient: can be hung up
- Clip opening approx. 0,9 cm
- Board thickness 0,3 cm
- Low emission production in our local plant, can be recycled

#### **CLIPBOARDS AND CLIPBOARD FOLDERS**

# The clip Alongside the board, the most important thing is a good clip. We know our trade: MAUL has decades of experience in the area of clips and in metal manufacturing. This is how the MAUL pro clip and the manufacturing techniques for it were developed inhouse. It is the best in terms of material quality, clamping force and durability. This know-how about material selection, clamping springs and geometry is now applied to each and every clip for our clipboards. You can be sure of that.

### » EUROPES LARGEST CLIPBOARDS-SELECTION

We have manufactured clipboards and clips for decades. Whether you need help choosing from our wide range of materials, require information on a clamp's mechanics and clamping force, or want to fi nd out more about our reliable quality control system, one thing is for certain: this is our area of expertise. **Choose from over 90 models and 30 product lines. Our company offers the widest range of products in Europe. MAUL - your clipboard experts**. An overview of all models can be found on pages 38/39.

#### WHO USES CLIPBOARDS?

Clipboards are used in all areas of everyday life. Let yourself be inspired:

- Truck and bus drivers
- Train and airport staff
- Package deliverers
- Rescue workers
- Event planners
- Sport organisers
- Trainers on the sidelines
- Construction supervisors
- Tradespeople
- Warehouse staffInventory workers
- Stand builders
- Tour operators
- · Real estate agents
- Graphic designers
- Artists
   Architects
- Galleries
- Wait staff in cafés and restaurants
- Training managers
- Students

#### REGULAR CLIPBOARD, CLIPBOARD FOLDER, OR ONE WITH STORAGE COMPARTMENT?

Clipboards are plain boards which have a clip to hold paper.

Clipboard folders have a cover which can be closed to protect the documents (e.g. from rain) and as a privacy screen. Some models also have a zip.

Clipboards with storage compartments for storing pad paper, pens, calculators or tape measures, for example. Impact-, dust- and water-proof.

#### WHICH MODEL IS RIGHT FOR YOU?

Select features such as shape, material, weight, colour and clip-width to find your ideal model. Additional options such as a rim for hanging, temperature resistance, transparency, pen holders, pocket calculators or a stop edge increase comfort and make the clipboard an indispensable tool. To help you decide, you can use our shopping assistant at **www.maul.uk**.

### » RIGHT ON TREND: DIY IDEAS

When it comes to DIY, lettering is a mega trend. And our clipboards are right inthe middle of it all, as a holder for the template or as the centrepiece when they are painted directly. There are many more ideas for designing with clipboards too: plotting, taping, napkin technique or as a third hand in macramé or friendship ribbon knotting - be inspired at www.instagram.com/maulgmbh.

We thank Gloria Wolf, www.instagram.com/\_wolfskunst\_/ for the pictures with the pink clipboard and Anika Simon www.instagram.com/letter.werk/ for the pictures with the wooden boards.

#### »CORK - NATURE'S ALLROUNDER

Cork is modern and attractive

Do wine corks and flooring also come to mind first when you think of cork? In fact, cork is our secret favourite of all our natural materials. Thanks to its incredible variety of properties, it is one of the most modern materials of our time.

Cork feels good to the touch

Cork is very good at insulating. This is due to the many gas-filled cells that look like honeycombs. There are millions of them in just one cubic centimetre.

That is why cork feels so pleasant to the touch. This is particularly evident when working outdoors. For example, a writing surface is much more comfortable to work with if the material does not absorb the ambient temperature. If you are a construction manager or a football coach, you can leave a cork writing board in the sun in summer without burning yourself. Or leave it in the car in winter and the clipboard still will not feel ice cold.

Cork is a true lightweight

Cork is also extremely light and does not add weight to a school bag or college backpack. Waiters and waitresses who are on the move all day with a clipboard likewise love a lightweight model that is also pleasant to the touch.

#### **CLIPBOARDS AND CLIPBOARD FOLDERS**

#### **SCALES**

# » WE'RE PASSIONATE ABOUT PRECISION

The manufacture of scales is a craft that we are particularly proud of mastering. Making scales is all about precision and attention to detail. The sensor of a 2-kg weighing scale moves by as little as 0.00035 mm when a 1-gram weight is placed on it – an amount not detectable by the naked eye. Even when the maximum load of 2 kg is applied, it only moves by a minuscule 0.7 mm. Our tolerance limit for electronic scales is 0.5% +/- 1 unit increment and applies for a temperature range of 5° to 40°C, which is stricter than prescribed by law. With the help of computer calibration and double final inspections, we ensure compliance with the regulations.

# » THE A-Z OF SCALES

All scales require a minimum weight to start the weighing process. Weights below this threshold are not detected by the scales.

All MAUL scales are calibrated after assembly, which means they are adjusted and tested to ensure precise results. In the case of user calibration, you utilise the calibration weight to check and adjust your scales yourself following prolonged use.

The unit increments of the scales. The smaller the divisions, the more accurate the weight measurement.

#### Taring / Tares

Tare function. Serves the measurement of an additional weight, e.g. after placing a container on the scales. Place the container on the scales, re-set the scales to zero by pressing the tare button, then place the item to be weighed on the scales and read the net weight (= without the weight of the container)

#### Unit selection q/lb/oz/ml

The scales can weigh in standard units used in foreign countries. oz is the unit symbol for ounces, lb (lat. libra) stands for pounds; ml is a unit of volume, e.g. for weighing liquids.

#### Load capacity

Defines the maximum weight that can be measured. Exceeding this threshold by a significant amount may damage the scales.

#### Counting function

For determining a quantity without counting all the individual items: establish a reference weight, for example by placing 10 screws from a pack on the scales. This value is stored. Then place all the packs on the scales; based on the weight, the scales calculate the total number of items.

#### Automatic shut-off

After a specified period of time, the electronic scales switch off automatically if not in use in order to save energy.

# MAUL

#### **SCALES**

### Solar letter scale MAULtronic S, 2 kg/5 kg

- · Awarded the environmental award "Blue Angel"
- · Made in Germany, 3 years guarantee
- · Top solar technique with low power ASIC technology
- · Unique: Patented measuring system
- Design model: Modern vertical stripes
- Easy to read thanks to inclined display
- From the scales specialist with over 80 years of experience
- · Changing and disposing of batteries is unnecessary
- Excessive energy is stored and used under dark conditions (under 150 lux). The statutory minimum lighting level in offices is 500 lux
- Full performance even in dark rooms
- Stable: Shock-proof plastic case
- Practical: automatic switch-off, automatic zero-positioning
- One key operation: On-Off-Tare-Hold
- Hold key to freeze the displayed weight
- Platform Ø 12,8 cm
- Size 19,6 x 13,0 x 6,5 cm

### Letter scale MAULsteel II, 5 kg

- · Noble: Platform made of brushed stainless steel
- Design control pad, halfround in contrasting black
- · Very flat construction
- Flexible: Can be switched to q/lb/oz/ml
- Technical quality concept Made by MAUL, the scales specialist with over 80 years of
- Battery operated includes two 3 V lithium battery (CR2032)
- Stable and easy to clean: housing made of stainless steel and shock-proof plastic material
- Practical: automatic switch-off, automatic zero-positioning
- One key operation: On-Off-Tare
- One key for weighing unit
- Platform 12,5 x 15,5 cm
- Size 13,5 x 20,5 x 1,4 cm

Item	Colours	Minimum load	Division	Capacity	PU
165 60	96 light silver	4 g	1 g	5 kg	1 pc(s).

### Letter scale MAULtouch, 5 kg

- · Noble: Silver painted plastic with matt surface
- · Can be read easily: Large display
- Flexible: Can be switched to g/lb/oz/ml
- · Modern design, rounded front
- Technical quality concept Made by MAUL, the scales specialist with over 80 years of experience
- Battery operated; includes three 1,5 V batteries (AAA)
- Stable: shock-proof plastic case
- Practical: automatic switch-off, automatic zero-positioning
- One key operation: On-Off-Tare
- One key for weighing unit
- Platform 16 x 16 cm
- Size 16 x 23 x 1,8 cm

Item	Colours	Minimum load	Division	Capacity	PU
163 50	95 silver	4 g	1 g	5 kg	1 pc(s).

### Solar parcel scale MAULparcel S, 50 kg

- Awarded the environmental award "Blue Angel"
- Made in Germany, guarantee 3 years
- Top solar technique with Low-Power-ASIC technology
- · Unique: Patented measuring system, patented housing concept
- ISPA "Product of the Year" award and "Product of the Year" (Association of the Plastic Industry)
- Easy glare-free reading thanks to bevelled display
- From the scales specialist with over 80 years of experience
- Changing and disposal of batteries is unnecessary
- Excessive energy is stored and used under dark conditions (below 150 lux). The statutory minimum lighting level in offices is 500 lux
- · Works even in low-lit rooms
- Stable: shock-proof plastic material
- Practical: automatic switch-off, automatic zero-positioning
- One key operation: On-Off-Tare-Hold
- Hold-function to freeze the displayed weight
- Large weighing platform 30 x 30 cm
- Size 39,9 x 30,4 x 7,6 cm

Item	Colours	Minimum load	Division	Capacity	PU
174 50	82 grey	100 g	10 g (0-10 kg), 50 g (10-50 kg)	50 kg	1 pc(s).

# » Excelent: MAUL Solar Technology

The energy consumption of the MAUL solar scales is only 0,00004 Watt – the millionth part of a 40 watt bulb! Surplus energy is saved in a gold condenser and can be used under darker conditions (below 150 lux). For this reason it is possible to use the solar scales in dark rooms.

By using solar technology many hundred thousand batteries are saved per year. We have also considered the aspect of the environmentally-friendly disposal: material identification, screw- and snap-fittings allow a sorted disposal of the individual parts. MAUL was the first company to be awarded a patent for its' solar parcel scales construction.

#### Free positioning of the control pad on the table or with two brackets on the wall

Parcel scale MAULparcel, separate control pad,

- · Unique: Patented measuring system, patented housing concept
- Battery operated, energy-saving Low-Power-ASIC-technology
- · Stainless steel platform, removable, sturdy and protective, easy to clean
- · Better legibility also for larger parcels thanks to separate bevelled control pad
- · Flexible: Can be switched to kg/lb
- · Large platform
- From the scales specialist with over 80 years of experience
- Stable: shock-proof plastic housing
- Two 1,5 V round cell batteries (AA) included
- Free positioning of the control pad on the table or with two brackets on the wall
- Closed, dust-protected control pad
- Practical: automatic switch-off, automatic zero-positioning
- One key operation: On-Off-Tare-Hold
- · Hold key to freeze the displayed weight
- Length of lead platform control pad: 0,8 m
- Control pad 21,3 x 10,1 x 5,2 cm
- Large platform 30 x 30 cm

Item	Colours	Minimum load	Division	Capacity	PU
177 50	90 black	100 g	10 g (0-10 kg), 50 g (10-50 kg)	50 kg	1 pc(s).

# Parcel scale MAULcargo, separate control pad, adapter, 50 kg

- Incl. power supply (100-240 V/9V; cable length 1,5 m) and 9 V block battery
- · Stable: Platform made of stainless steel with anti-slip nubs, easy to clean, protecting
- · Clever counting function: Quantity of identical items can be counted
- · Extremely flat construction
- Better legibility also for larger parcels thanks to separate display, beyelled
- Technical quality concept Made by MAUL, the scales specialist with over 80 years of
- Stable: housing made of lacquered steel
- Free positioning of the control pad on table or wall
- Closed, dust protected control pad
- · Practical: automatic switch-off in battery-mode
- · Automatic zero setting
- One key operation: On-Off
- User calibration possible, counting and tare function
- Counting function: put reference weight, save, place all identical items on the scales and the total quantity is shown
- Flexible: can be switched to kg/lb
- Cable length platform control pad: 2,20 m
- Aluminium control pad 18,1 x 9,1 x 3,8 cm
- Large platform 27,3 x 27,3 cm, minimal height 4,8 cm

Item	Colours	Minimum load	Division	Capacity	PU

## Counting scale MAULcount, incl. adapter, 10 kg

- · For counting parts of the same weight
- Useful: Determine the quantity without having to count every single piece
- · Sturdy: Stainless steel platform, removable for easy cleaning
- Can be operated alternatively with mains supply or battery: Including mains adapter (230 V/6 V, length of power cord 1,4 m) and a 9-volt battery
- Technical quality concept Made by MAUL, the scales specialist with over 80 years of experience
- Stable: shock-proof plastic housing
- Automatic switch-off when battery operated, automatic zero-positioning
- No automatic switch-off when operated with mains supply to avoid annoying repeated switch-on. For continuous operation in mailing or shipping departments
- Functions: On/Off, tare, counting, user calibration
- Flexible: can be switched to g/kg/oz/lb oz
- Weighing platform 17 x 17,5 cm, overall dimensions 25,5 x 18 x 6,9 cm

Item	Colours	Minimum load	Division	Capacity	PU
167 91	82 grey	5 g	1 g	10 kg	1 pc(s).

### Precision scale MAULalpha, 500 g

- · For laboratory or dietary use
- · 200 g weight for calibration or control purposes included
- Flexible: Can be switched to g/oz
- Stable: Shock-proof plastic case
- Technical quality concept Made by MAUL, the scales specialist with over 80 years of experience
- Battery-operated includes two 1,5 V micro batteries (AAA)
- Practical: automatic switch-off, automatic zero-positioning
- One key operation: On-Off-Tare
- One key for weighing unit
- Platform Ø 12,4 cm, size 18,8 x 14,1 x 3,7 cm

Item	Colours	Minimum load	Division	Capacity	PU
164 05	90 black	0,2 g	0,1 g	500 g	1 pc(s).

# Paper scale, 350/900 g

- · For measuring paper weights in grams per square meter
- · Made in Germany, guarantee 3 years
- German craftmanship: needle-bearing with a 1/100 g precision
- The MAUL original. Unique mechanical paper scales
- From the scales specialist with over 80 years of experience
- Precision scale 0 to 350 g/m², master plate 10 x 10 cm
- Rough scale 0 to 900 g/m², master plate 8 x 5 cm
- Very stable: Cast-iron base, steel support, both with black varnish, height 26 cm
- Brass plated sheet iron lever and pointer, aluminium dial, master plates and control weight
- Zero-positioning possible using screw

Item	Colours	Division	Capacity	PU
188 09	90 black	1 g (0-200g), 2,5 g (200-350 g), 5 g (0-600 g), 10 g (600-900 g)	900 g	1 pc(s).

### Pocket scales MAULpocket II, 500 g

- Handy size, for bags, suitcases oder drawers
- Protected: Imitation leather case included
- · LCD display with touch function
- · Counting-function: Count identical items
- · Can be switched to g/oz/gn/ct
- · User calibration possible: 200 g-weight for user calibration or control purposes included
- Technical quality concept Made by MAUL, the scales specialist with over 80 years of experience
- Shock-proof plastic housing, with lift-up lid
- Battery operated includes two 1,5 V micro batteries (AAA)
- Stainless steel platform, 6 x 6 cm
- Practical: automatic switch-off, automatic zero-positioning
- 4 keys: On/Off, Z/T (Tare), C (Count), Mode (change weighing units)
- User calibration possible
- Size closed 11,5 x 7,3 x 1,8 cm
- Pen not included in delivery

Item	Colours	Minimum load	Division	Capacity	PU
161 15	90 black	0,7 g	0,1 g	500 g	1 pc(s).

## Luggage scale MAULtravel, 40 kg

- ullet For weighing luggage, school bags and parcels with bands
- Non-tearing strap, 29,5 x 2,6 cm, with stainless steel hooks
- Shock-proof plastic case, ergonomic form
- · Large LCD display
- Technical quality concept Made by MAUL, the scales specialist with over 80 years of experience
- Battery-operated, includes a 3 V lithium battery (CR2032)
- Practical: automatic switch-off
- One key operation: On-Off-Tare
- Hold key to freeze the displayed weight for a short time
- Flexible: can be switched to kg/lb/st
- User calibration possible
- Size 15 x 5 x 3,4 cm

Item	Colours	Minimum load	Division	Capacity	PU

# LED flashlight MAULkronos XL

- · For professional use, length 28,7 cm
- · High luminous range and intensity, long burn time
- Suitable for outdoor use, splash-proof (IPX4)
- Including 3 x 1,5 V batteries (type D) 18000 mAh
- · Variable: Adjustable light cone (zoom function) for large area near light or focused far light
- Three light modes: High brightness (100%), low brightness (30%), stroboscopic light (flashes of light) for danger prevention
- · Ideal in the commercial sector, for craftsmen, in the workshop, when walking in the dark or
- Luminous flux 419 Lumen, daylight white light, high luminous range, up to 295 m
- Long lighting duration: Max. 100 h, min. 33 h, depending on light mode
- Extremely economical: High-performance CREE LED
- Head Ø 5,4 cm, with roll-away protection, lens made of high-quality, crystal- clear plastic
- Reflector opening Ø 3,8 cm
- Robust housing construction, matt black anodised aluminium, corrosion resistant
- Sophisticated: Housing with non-slip structure for a secure grip, Ø 3,9 cm
- Practical: Free-standing hand lamp, can be used e.g. as table light on an even surface
- One-handed operation of the light levels: Rubberised push button laterally on the front side
- Quick and easy adjustment of the light cone by moving the reflector to the front or back
- Please note: Safety instructions can be found at www.maul.uk with the product

- Reflector opening: Ø 1,8 cm
- Robust housing construction, black anodized aluminium, corrosion resistant
- Sophisticated: housing with non-slip structure for a secure grip, Ø 1,9 cm
- Practical: free-standing hand lamp, can be used e.g. as table light on an even surface
- One-handed operation: Push button laterally on the front side
- Quick and convenient adjustment of the light cone by moving the reflector forward or backward
- Please note: Safety instructions can be found at www.maul.uk with the product

# MAUL

#### **FLASHLIGHTS AND ACCESSORIES**

- · Handy flashlight, length 11,8 cm
- · Including metal clip for breast pocket or clipboard, removable
- · Compact: Fits in trouser or jacket pocket and the glove compartment
- Suitable for outdoor use, splash-proof (IPX4)
- Including 1 x 1,5 V battery (type AA) 2300 mAh
- Variable: Adjustable light cone (zoom function) for large area near light or focused far light beam
- · In the hobby and private sector, for emergencies
- Luminous flux 20 Lumen, daylight white light, luminous range up to 10 m
- Lighting duration 8
- Extremely economical: State-of-the-art LED technology
- Ideal for occasional use e.g. by craftsmen, for repair work, when walking in the dark or for camping
- Head Ø 2,3 cm, with roll-away protection, lens made of high-quality, crystal- clear plastic
- Reflector opening Ø 1,8 cm
- Robust housing construction, black anodized aluminium, corrosion resistant
- Sophisticated: Housing with non-slip structure for a secure grip, Ø 1,9 cm
- Practical: Free-standing hand lamp, can be used e.g. as table light on an even surface
- One-handed operation: Push button laterally on the front side
- Quick and convenient adjustment of the light cone by moving the reflector forward or backward
- Please note: Safety instructions can be found at www.maul.uk with the product

# LED flashlight MAULjuno

- · Handy flashlight, length 9,4 cm
- Ready for immediate use: Including pendant with practical quick release fastener to attach
  it to key ring, waistband or jacket
- · Compact: Fits in trouser or breast pocket and the glove compartment
- Suitable for outdoor use, splash-proof (IPX4)
- · Practical: One-handed operation, rubberised push button protected on the underside
- Including 1 x 1,5 V battery (type AA) 2300 mAh
- · In the hobby and private sector, for emergencies
- Luminous flux 15 Lumen, daylight white light, luminous range up to 10 m
- Lighting duration 11 h
- Extremely economical: State-of-the-art LED technology
- Head Ø 2 cm, with roll-away protection, protective screen made of high- quality, crystal-clear plastic
- Reflector opening Ø 1,5 cm
- Robust housing construction with anti-slip structure, aluminium matt black anodized, corrosion resistant
- Sophisticated: Housing with anti-slip structure for a secure grip, Ø 2 cm
- · Please note: Safety instructions can be found at www.maul.uk with the product

Item	Colours	Weight	Length	PU

#### **FLASHLIGHTS AND ACCESSORIES**

## LED flashlight MAULhelios

- · Rechargeable battery hand lamp for professional use, length 23 cm
- 5 light modes: 3 brightness levels (100%, 30%, 10%), flash, SOS
- · High luminous range and intensity, long burn time
- Suitable for outdoor use, splash-proof (IPX4)
- Rechargeable: Including 2 x 3,7 V Li-Ion batteries (type 18650) 2300 mAh, (MAUL battery charger: Art. no. 818 81 90)
- · Ideal for security forces: Meets the highest demands and provides support in case of danger
- · Very suitable also for hikers, hunters, sportsmen, camping
- Luminous flux 700 Lumen, daylight white light, high luminous range: up to 300 m
- Long lighting duration: 20 h (low light level), 5 h (medium), 2.5 h (high)
- Extremely economical: High-performance CREE LED
- SOS mode get help in case of danger: flashlight sends light pulses in Morse code adding up to  $S-\Omega-S$
- Flash light averting danger and self-protection through stroboscopic light: Quick changes of the brightness distracts or disturbs the attention of other people.
- Head Ø 6,3 cm, protective glass pane
- Reflector opening: Ø 5,4 cm
- Robust housing construction, matt black anodised aluminium, corrosion resistant
- Sophisticated: Housing with non-slip structure for a secure grip, Ø 2,6 cm
- One-handed operation of the modes: Rubberised push button laterally on the front side, switch for ON/OFF at the bottom
- Please note: Safety instructions can be found at www.maul.uk with the product

# Battery charger XTAR MC2

- Suitable e.g. for rechargeable batteries (art. no. 8188590) of the LED flashlight MAULhelios
- · Practical: 2 charging bays which work separately
- Three-stages charge (TC-CC-CV)
- · Control of the charging status via LED display
- · Voltage-dependent regulation of the charging process
- Trickle charging in idle mode
- · Includes USB cable for Micro-USB charging connection
- Compatible lithium-ion battery types (3.6V / 3.7V): 16340 / 18350 / 10440 /14500 / 14650 / 16650 / 17500 / 17670 / 18500 / 18650 / 18700 / 20700 / 21700 /22650 / 26500/ 26650, with 26500 and 26650 it is only possible to charge one battery at a time
- Reverse polarity protection, short-circuit protection circuit & overcharge protection
- Power supply and batteries not included
- Power supply requirements 5V USB (e.g. mobile phone chargers, PC-USB etc.)
- OV battery activation
- IC temperature monitoring system
- Supply voltage / current 5V / 1000mA max.
- Nominal power consumption 5W max.
- Weighted energy consumption 5 kWh/1000h max.
- Output voltage/current 4,2V=; 0,5A max.
- Constant charging current 250/500 ± 50mA, depending on supply
- Constant charging voltage 4,2 ± 0,05V
- Operating temperature 0°C 40°C
- Storage temperature -30°C 60°C
- Dimensions 9,2 x 4.0 x 3,3 cm (LxWxH)
- Safety advice: Keep away from children! Incorrect use or a short circuit can cause a fire/explosion.
   Device is designed for the domestic use, keep water and moisture away. Disassembly and modification are strictly prohibited

Item	Colours	PU
818 81	90 black	1 pc(s).

# Rechargeable battery Samsung ICR18650-26H

- Suitable for LED flashlight MAULhelios item no. 8187790
- Suitable for battery charger XTAR MC2 item no. 8188190
- Two high-quality rechargeable batteries
- · Long service life
- IC protection / PCB with short circuit, overcharge and deep discharge protection
- Nominal capacity 2600mAh (= 1C)
- Minimum capacity 2500mAh
- Charging voltage 4,2 ± 0,05V
- Nominal voltage 3,7V
- · Nominal energy 9,62Wh
- Final discharge voltage 2,75V
- Operating temperature charging: 0°C to 45°C, discharging: -20°C to 60°C
- Storage temperature 1 year: -20°C to 25°C, 3 months: -20°C to 45°C, 1 month: 20°C to 60°C
- Length 69 mm. Ø 19 mm
- Safety advice: Keep away from children! Incorrect use or a short circuit can cause a fire/explosion

# »TOMORROW'S WORLD OF WORK

# »CONCENTRATION / **EFFICIENCY**

The workspace is becoming a retreat for tasks that require lengthy periods of concentration. This is a peaceful environment where your stress level falls and you can work in a shielded setting without any distractions. In the case of flexible workplaces, dividing walls provide privacy. Quiet spaces and "think" spaces are used for relaxation, while also facilitating concentrated work on an individual basis. Phone calls are made from sound-insulated audio rooms where 100% silence is guaranteed. Flexible working hours and locations free up office space. Fewer mistakes are made; efficiency and productivity increase.

# CREATIVITY / COMMUNICATION

The office of tomorrow is more than just a workplace; it's a place for meeting and interacting. People meet up face-to-face to discuss ideas or findings. This communication culture facilitates creativity and rapid knowledge transfer. There need to be spaces large enough to cater for teamwork. In "smart" meeting areas, information flows faster; in work & play zones, new solutions can be developed in a fun way. Mobile presentation tools that can be adapted to the size of the team provide assistance with creative techniques. Everything is in flux.

# **WORK-LIFE INTEGRATION**

The boundaries between work and home are disappearing; professional and private lives are merging due to digitisation. There is a desire for feel-good surroundings that generate satisfaction and maintain health. Ergonomics are not only important in the office, but in all areas of life. Movement is being encouraged; sport and play areas are being created along with recreation zones and relaxation oases. There, in contrast to the work areas, the emphasis is on de-digiticonnectivity with nature via plants and other it's time for a break, you can enjoy some natural elements facilitates well-being and improves air quality.

# MOBILITY / **FLEXIBILITY**

Working when and where you want. Data and information come from the cloud and can be accessed anywhere via mobile devices. This means you're free to choose where you want to work, depending on your personal situation and the tasks on hand. It may mean working in co-working spaces or from home, and desk-sharing at the office the next day. Alternatively, you may find yourself doing concentrated tasks in "privacy areas" and attending a meeting sation. Biophilic design is an ongoing trend: in the "creative center" an hour later. When relaxing music in the "quiet room" before preparing for the next meeting on a train or plane.

# »CONCENTRATION EFFICIENCY

A shielded setting is the key to concentrated work. Mobile moderation boards provide the necessary privacy. At the same time, the various different surfaces can be used for visualising information. Another factor to consider is ergonomics, as body posture is mostly static in the case of focused activities; you don't move about a great deal. Therefore furniture that can be adapted to the user, such as height-adjustable desks, are important. Footrests are helpful if the desk height is unsuitable. There is also a need for lamps that can be adapted easily to movements of the desk and provide direct illumination of the workstation. The best option is variable lighting intensity and colour temperature to cater for every task.

This is where we appeal to the senses, as the working environment should be attractive, sustainable and comfortable. Products manufactured in Germany using low-emission methods satisfy the need to save resources. Memo boards and clipboards made from natural materials such as cork or wood also meet the need for sustainability. An attractive wall clock or coloured accessories, for example the new colours from #colourmywork, provide personal touches. Heated ergonomic footrests and standing-height tables improve physical comfort and help you stay healthy. The same applies to lamps with alternating light colours. They provide sufficient illumination for focused work and warm white light for meetings or relaxing breaks.

# »CREATIVITY COMMUNICATION

The business world is calling for products that are hard-wearing and thus meet the demands of ever-changing teams. Sturdy frames, durable materials and robust mount fittings withstand intensive use and even the most boisterous of creative thinkers. For large rooms, boards measuring up to 3 metres in width are ideal. Double-sided mobile boards with rotating panels and flipcharts are easy to roll around. Suitable for writing, drawing and clamping and usable with magnets, post-it stickers and flipchart pads good boards are genuine all-rounders when it comes to creativity. If you're short of desk space, a standing-height table is helpful; another option for individual workers is a clipboard: the smallest flexible work surface available.

# »MOBILITY FLEXIBILITY

A highly dynamic work situation calls for tools that are adjustable, both to the task on hand and, above all, to the people – products that you can easily take with you or move around. Rolling panels and boards allow you to create flexible working areas and meeting zones, while also serving as an information medium. Movable, height-adjustable standing tables provide additional desk space as well as a surface on which to place miscellaneous items at meetings; moreover, they also ensure an ergonomic posture. Other helpful accessories include lamps that complement room lighting, provide direct illumination of the work surface and adapt to every movement of the table, or cable-free lamps that fit in your pocket. Equally useful are clipboards that can serve as a substitute for a table.
