Hygiene & cleaning

**DISPENSERS
WASTE BINS**

www.maul.uk

» Welcome to a clean, safe and pleasant working environment

Hygiene and cleanliness are no longer just about comfort – they reflect responsibility, consideration, and a professional standard for workplaces and shared spaces. Whether in offices, hospitality, healthcare or industrial settings, functional hygiene solutions like dispensers and waste bins help protect health, simplify processes, and promote a well-kept overall appearance. With thoughtful design, user-friendly technology and durable, resource-conscious materials, our products set benchmarks where hygiene matters – day after day.

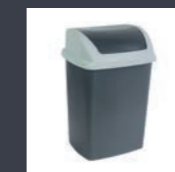

Up to 30% of all transmissible infections can be prevented through consistent hand hygiene. And when it comes to waste disposal, data from the German Environment Agency shows that around 50 million tonnes of commercial waste are generated each year in Germany alone – a large portion of which could be recycled through systematic separation. By equipping workplaces with the right dispensers and waste bins, companies contribute not only to better health, but also to resource conservation and sustainability in everyday operations.

» Waste bins

Waste bins are used daily in offices, medical practices, hospitality venues and industrial settings – by employees, cleaning staff and visitors alike. Sustainability and ease of cleaning are key factors when it comes to choosing a solution that is not only practical, but also responsible.

SUSTAINABILITY STARTS WITH SEPARATION

Waste separation is the first step toward conserving resources. Our bins support sorted waste collection – space-saving and functional. With user-friendly designs and intuitive symbols, they actively promote the correct disposal of recyclables. This helps optimise recycling processes and protect environmental resources.

MADE FOR EVERYDAY USE

High-quality materials and smart construction ensure that our bins remain stable, durable and safe – even under heavy use. They are tip-proof and built to last.

CLEAN HANDLING WITHOUT CONTACT

Whether open, pedal-operated or with angled lids – contact-free use is hygienic and convenient. It helps reduce germ transmission and improves everyday user acceptance. Large openings, practical bag fixtures and easy handling make emptying fast and efficient – even when waste volumes are high.

STRONG FUNCTION, SMART DESIGN

Our waste bins are also visually appealing and integrate seamlessly into any interior – from minimalist office spaces and hygienic healthcare environments to upscale hospitality areas.

» WASTE BIN

Waste bin MAULprime

- Square design waste bin made of stainless steel
- Open lid design: Easy disposal through large opening
- Safe: Wide rim prevents waste from springing out
- Elegant look: Brushed stainless steel with black trim and sturdy ABS plastic inner ring
- Non-slip, floor-friendly base with rubber feet
- Low maintenance: Fingerprint-resistant coating, easy to clean, rustproof
- Suitable for offices, gastronomy, medical practices, homes and commercial use

- Invisible: side opening in the bin for hanging the waste bag
- Intuitive handling: easy bag replacement by lifting the lid
- Recyclable packaging
- Available from 10 / 2025

Item	Colours	Capacity	Size	PU
950 15	94 silver	15 l	25,3 x 25,3 x 33,4 cm	1 pc(s).
950 25	94 silver	25 l	25,3 x 25,3 x 50,4 cm	1 pc(s).

952 24	87 Dark grey	24 l	27 x 33 x 59 cm	1 pc(s).

» Hygiene Dispensers

Awareness of hygiene has increased significantly in recent years. Modern dispenser solutions help break chains of infection and build trust – among employees, customers and guests. MAUL dispensers are found wherever cleanliness and hygiene are essential: in washrooms, toilets, reception areas, changing rooms or office kitchens. They integrate seamlessly into any interior concept and deliver hygiene at a high level.

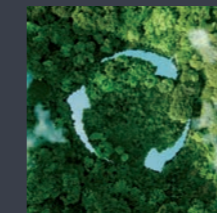

SAFE AND CONVENIENT

Mechanically optimised or sensor-operated systems enable touch-free use. This reduces cross-contamination and ensures maximum hygiene with minimal effort. Our dispensers are easy to install and quick to refill, and the cartridge change is maintenance-friendly and tool-free.

SUSTAINABLE THROUGH SMART SYSTEMS

Efficient dosing mechanisms and durable, partly recycled materials help reduce consumption and waste – for more sustainability in everyday life. The combination of resource-saving technology and optimised usage quantities lowers operating costs and environmental impact. Our dispensers thus make an active contribution to greater sustainability – without compromising on comfort or aesthetics.

FORM FOLLOWS FUNCTION

Design doesn't have to look clinical. Our dispensers impress with clean lines and premium surfaces – suitable for any interior.

Double-roll toilet paper dispenser MAULcare

- **High quality & hygienic:** Vertical dispenser for two toilet paper rolls
- **Intelligent:** After the first roll is used, the second one automatically falls down and is ready for use
- **Contactless:** Touch-free, easy sheet dispensing
- **Cost-effective:** High capacity up to 900 sheets for less frequent refilling
- **Sustainable:** Brake function to prevent accidental unrolling reduces consumption and waste
- **Only usable with MAUL toilet paper roll, 2-ply, item no. 9536209 or 3-ply, item no. 9536409**
- **Durable:** Made of high-quality, shatterproof plastic (ABS) for long lifespan
- **Safe:** Lockable to prevent unauthorized access

- For all hygiene-relevant areas in offices, craftsmanship, industry, and hospitality
- Design dispenser: Modern shape, elegant lines, matches all dispensers in the MAULcare series
- Quick and easy refilling
- Easy and secure wall mounting, including mounting materials
- Space-saving: Slim design for limited wall spaces
- Easy-care and hygienic: Smooth surfaces for easy cleaning
- 100% recyclable
- Recyclable packaging

Item	Colours	Size (l x w x h)	PU
